

Coming Monster Tsunami Disaster 2015-7.

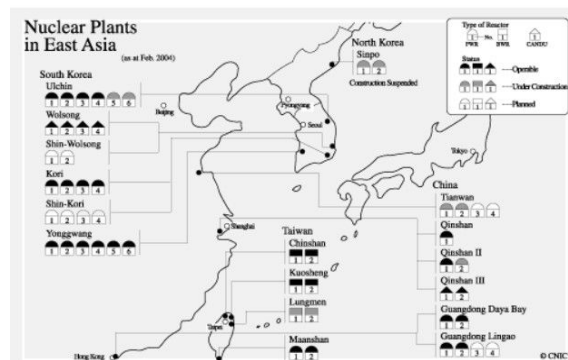

2025/01/01

Here are many too serious prediction on coming awful enough monster Tsunami attack to **East Asia and Japan sea coasts**, where are many Nuclear Plants(NP). In 2011/3/11, Fukushima NP was destroyed by strong Tsunami to cause spreading terrible strong radio activities. Now Japanese has been suffering its settlements due to technical difficulty with the outrageous damage cost. Coming monster tsunami is predicted **stronger** than Fukushima. Once NP had been destroyed, the disaster scale would be outrageous enough. Thereby, now you must make serious decision to halt NP with strong guarding setting in coming period. Possible damage cost is higher than cost of the halting.

Now authors information are only the higher possibility and the damage.

①The roughly source location and the period of coming Tsunami.

It is told being caused by big volcano explosion in the sea floor due to planet parade.

(1)somewhere on **Philippine Plate Boundary Line**.

(2)**2015/1/<...16...>** the time of planet parade→**2015/7/5(predictions)**.

Unlike prior parades, this one is set to last quite a while since the planets are in advantageous spots in the sky.← this is to cause earthquake !.

②The Science Validity.

(1)Increased gravitational pull on the surface layer due to planetary alignment! .

(2)Earthquake and volcano explosion are due to plate(magma)flow sliding, which are triggered or enhanced by pressure decreasing of flow due to (1).

The details should be asked experts the responsibility.

☠: *Kikai caldera eruption 7300 years ago was the largest in the Holocene, Kobe University*

③Almost The Strong Warning Prediction Chorus !!!.

Prophecy, 2025/7/5 Japan-world crisis is coming on !!!.

***Prophecy** ≡ Salvation warnings and teachings entrusted to “earthly messenger” by an almighty merciful angel in heaven.

***“Earthly Messenger”** ≡ A person **common with** fair, intelligent, and sincere character. .It seems that the almighty heavens can see through all the people on earth.

(1)Now Japanese are surrounded by civilizations given by all over the world.Thereby,we must be modest. Recently author happened to know the amazing ancient history of Japan,which was singular enough.
*Note the world history is roughly told perpetual **war ruling with class regime**.Both are an evil co-body. They had established **17000**years long peace times of(collective small)society **without WAR & CLASS**. Their religion is told worship of equality on souls in all natural things,Their solidarity was caused by equality, 7300 ago,they encountered catastrophic volcano **disaster causing food vanishing**,,however,after the event, they did not need war with class regime,but once again recover equality society.

(3)Being entrusted with a mission from heaven seems a combination of favor and tribulation. The same go for Steiners, Jews and Japanese.By having seen coming unprecedented catastrophe,many survived Japanese are to be awoken to understand righteousness of spiritualism to turn ruling by materialism prosperity. (3+1)dim universe is not unique,but infinite in (11+1)dimension topology.

A model of 2 dim universe of multi-layer in 3 dimension.

Note our original total universe is not (3+1)dim,but (11+1),thereby infinite universe of degenerated (3+1)dim can be in (11+1).Also note such multi-dimensional universe are completely filled in the vacuum world of **anything can be**.That is,it is **complete equality universe**.

(5)Revelation 22:13

I am the Alpha and the Omega, the First and the Last, the Beginning and the End.

This universe began from a point(the unique uterus toward the great birth), consequently, we the ultra many twins are not isolated ,but connected altogether in whole universe,the ancient wise and modest mankind without contamination of spiritless materialism could realized the truth of the holy world<religion>.

The meaning of horoscopes is probably due to network connection by the origin.

This universe is also not isolated, but infinitely multi-parallel running universe.

Note our macroscopic universe is (3+1)dimension,while physical vacuum(anything can be) is (11+1)the original one. Thereby,in this total universe,there is an universe almost similar with us,which can interact with us in the vacuum filed. There is another universe at very near of us in (11+1)dim vacuum world.A Japanese in ㊦(3) may be connected with another he in another universe in the tragedy..

Those with Physics, Logic can understand quickly by above.

General people should refer APPENDIX-1.

💀 : **explosion theorem in LOGIC** = a contradiction enables realization of **anything can be**.

Almost us has been considering "a spiritual world" is entirely out of standard science.

But it is entirely wrong for who had not thought of **explosion theorem in LOGIC**.

It is a realization **anything can be** in non observable world = the other one of **vacuum world**.

It is certainly out of ordinal science, but it is also **a strict official standard science**.

① **Recognition of the Spirit World** <Heavenly Religious Revelation>.

= *Peaceful coexistence with "justice, truth, and benevolence" under God! !*

Logic and physics basis for heavenly existence and religious prophecies for the conversion of former atheist author. A strict understanding is based on official standard physics and logic, roughly speaking, those are below for ordinary people is

Appendix 1: Simple explanation of spirit world recognition! .

(1) **Vacuum Polarization Reaction (VP)** = simultaneous generation of elementary particles and antiparticles from **nothing** \rightarrow simultaneous annihilation to nothing, repeating in full vacuum. Not only elementary particles, but also composite particles of protons and neutrons in atomic nucleus, and **all the substances in general** $0 \rightarrow +M - M \rightarrow 0 \dots\dots\dots$

(2) VP is logical contradiction that nothing becomes not nothing even for a moment \Rightarrow logical contradiction vacuum world = **Anything is Possible**

In physical universe, there is only one thing that can be seen <realization=truth>, and it is separated into a **consistent material world** and a logically **contradictory vacuum world**. contradictory vacuum world is applied **logical explosion theorem**, thus *anything is possible* <lawless = **almighty**> in vacuum world.

(4)Omniscient and omnipotent heaven's **strong will** <revelation miracle>! .

The above (4) is an empirical rule based on many cases described in the materials!

(a) At a time when the earthly world is in great turmoil and misery, the heavenly world's powerful revelation of mercy and miracles come to the chosen evangelists.

Moses, Christ, John, Muhammad, Nichiren, Jucelino.N.L.,,,,,,,,,,

(b)Telepathy resonance between similar persons in this world and **the other similar world** in terrible disaster<③(3),④(4)(5)>.

(c)Person who can realize astral projection to trip to the other world.

(d)A strong display of will in the earthly world = Prayer causes mercy in the heavens <Devil's response??> Miracles occur <white magic and black magic>.

Appendix 1: Easy Explanation on Spiritual World Recognition ! .

① **Logic Explosion Theorem** = a contradiction enables everything true = *anything can be*.

<Lawless = Omniscience & Omnipotent = Almighty>

(1) Contradiction = simultaneous realization of A and notA

(2) Consistency = There is only one visible thing <realization = truth> in this physical world,

It is impossible to achieve different things at the same time, same position.

Contradiction exists in vacuum world, *anything can be* <Lawless = Almighty>.

☞: The simultaneous realization of $A \neq B$ is not false, but

when it comes to notA, all gray = (all A + all notA) = everything, anything! .

☞: If there is no contradiction in the physical world, there is only one cause-and-result relationship <**deterministic causality**>. Mathematics is established only by consistency with number theory <Completeness Theorem>, Incompleteness Theorem ②b leads to probability statistical mathematics

<http://www.777true.net/Goedel-Chaos.pdf>

② Vacuum Polarization Reaction:

(a) $0 = +a - a, \dots$ Nothing (vacuum) is established due to all physical quantities are \pm symmetric and cancel each other out.

(b) Gödel Incompleteness Theorem and a contradiction of real number 0^*

<many experts do not understand! >.

Gödel Incompleteness Theorem:

All axiomatic systems including natural numbers theory are incomplete = undecidable propositions M, Z exist.

Proof) The maximum value M of natural numbers is undecidable.

If M exists, then $M+1$ is also a natural number by definition, which is larger than M.

Definition of real number 0^* by rational one sequence

$0^* \equiv \lim_{N \rightarrow \infty} (1/N)$, but since the maximum value is undetermined in above, Since it is also smaller than any rational number, it cannot be anything other than 0. Thus, natural number 0 is defined as nothing, but which contradicts the above.

Example) Elementary particle size in standard model of experimental consistency is 0

If it is finite, it is a rigid body without parts, and propagation speed of a rigid body from end to end is ∞ , which contradicts relativity theory <Landau-Lifshitz, Classical Field Theory>

Reality of elementary particles with size 0 <Many experts do not understand! >:

Assuming a boiling, bubbling pot, it arises from nothing, bursts and disappears just before it expands to a finite size, but... The same process is repeated at many different points, and number of elementary particles and the physical quantities of random quantum wave fields are stored as the conserved quantities.

(b) **General material instantaneous-discontinuous spatial movement mechanism <±dipole line tunnel effect>:**

$M^+ - M^- - M^+ - M^- - M^+ - M^- - M^+ - M^- - M^+$
 $M^+ - M^- - M^+ - M^- - M^+ - M^- - M^+ - M^- - M^+$

*As the mass increases, the discontinuity distance approaches 0 <recovering classical mechanics>.

Author proves dipole-generating reaction of **general substances** other than elementary particles in below. By this proof, really **anything can be** in vacuum world.

<http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf>

[2] : (3)(c)

③ **By the above proof, truly anything can be in vacuum world! ! .**

(a) An existence of spirit world is testified by many people who have once had **near-death experiences**.

(b) **Astral Projection** = consciousness transfer and return to vacuum world .

As for the mechanisms, ②(b) in above, I don't know the initial action method. Please ask someone with experience.

**famous Swedenborg's experiences in spiritual world brought very important insights.

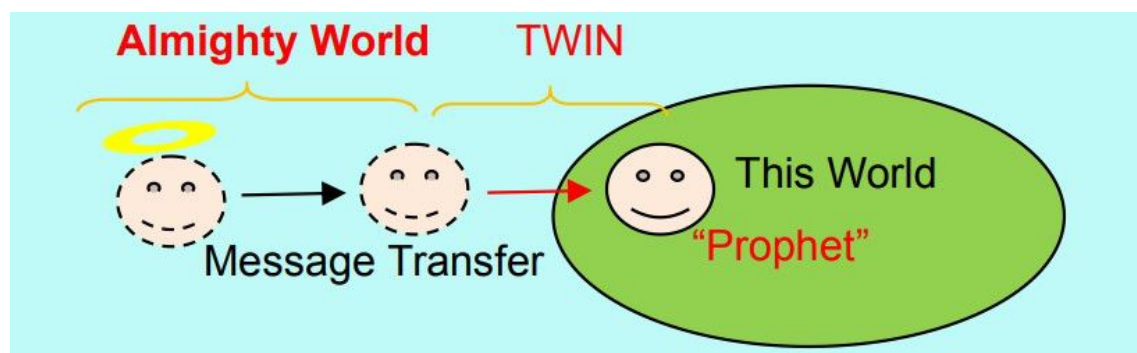

https://swedenborg.com/wp-content/uploads/2013/03/swedenborg_foundation_heaven_and_hell.pdf

(c) **Spiritual and this world communication by charge density(B)wave.**

In classical electromagnetic theory, there are two types of electromagnetic waves: A-wave is a transverse electromagnetic one that requires electric power in mobile phones, etc.,

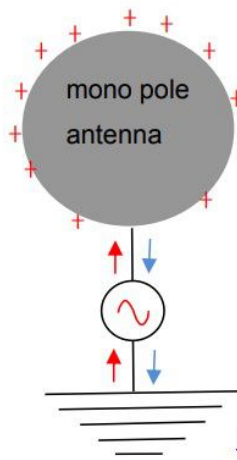

B-wave is a longitudinal charge density wave that does not require energy due to radiation from a **mono-pole capacitive electrode**, and in reality it is a vacuum-polarized dipole wave the density modulated one.

Communication between spiritual world and this world <a hypothetical model>

<http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf>

monopolar capacitive electrode radiation

Left fig is so called **capacitor** which absorb **charge** at the conductive surface, at where **CDW** is to be radiated toward exterior. Note a capacitor never consume energy, because alternate discharging is to output energy as same amount of input energy. While radiated CDW itself has positive energy, while it is with **negative energy** due to **attraction force** between positive charge and negative one. That is, $0 = +E - E$. Energy Conservation Law is still alive. Finally the negative could become negative energy of gravity field.

<http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf>

Appendix 2: Anti-Spirit World Recognition ! .

Kings and aristocrats the master robbers murderers are incompatible with the God of justice, truth, and benevolence, yet they obstinate to conserve their own high status. They employed, everything useful, and **black magic is their top secret**, and the situation is exactly the same even at top of the modern domination (Bilderberg, Rockefeller, UK Imperial Family), ruling subordinate societies to hide the spiritual world.

<https://www.globalresearch.ca/the-true-story-of-the-bilderberg-group-and-what-they-may-be-planning-now/13808>

(1) Religious doctrine is a peaceful world order based on justice, truth, and benevolence under God, which is contrary to **hegemonism(wars due to ruling by class regime) ! !**

(2) Since it is impossible to carry out an openly anti-religious policy, promote the people's separation from God by promoting a materialistic hedonistic world economy.

(3) Academic forces are implicitly suppressing the research and disclosure of truth of the spiritual world, and the current academic forces are also ignorant of the spiritual world.

(4) Concealing the ultimate truth of the world through the use of academic and media delinquents and promoting a policy of ridiculing the world's citizens

(a) Gödel's incomplete theorem: The big lie that **there are unknowable beings in this world** .

The actual situation is information loss due to mathematical singularity $\infty = 1/0$,

It is probability statistical phenomenon.

(b) **Creation of universe from nothing 1** <Quantum Logic [G. Birkhoff and J. von Neumann \(1936\)](#)>

In a nothing world, being of laws cannot be proven. Nothingness is forever and the **causal law** of nothingness cannot be proven <**contradiction established**>.

☞: Logical truth = realization (observable) with the success of quantum logic that makes observability the 1st principle. Logic in department of philosophy-faculty of Letters cannot forever prove this.

As a result, by the explosion theorem of logic, anything is possible <lawless = omniscience and omnipotent>. The resulting universe is $0=+E-E$, however, once the creation of matter occurs from lawless singularity, laws of physics begin to govern in th consistent world! !

☞ : **The creation of the universe begins from nothing 2,**

This never be clearly explained by **deterministic law of causality**, nothing is forever nothing, and if there is, there is no beginning. It is clearly unexplainable using deterministic causal law, and this is **the supreme agnosticism**, which is only God's skill!.

In communication theory, amount of information (entropy) $S = \infty$, which corresponds to the thermodynamic equilibrium state and is opposite of creation of universe. While, fluctuation value of S : **$\Delta S^2 = \infty$** (mathematical singularity) generally exists <Prove it yourself>.

$\infty = \Delta S = \Delta E$ (energy) / T (temperature) **(Thermodynamics definition)**

$\Delta E \Delta t = \hbar$ (time & energy uncertainty theorem of quantum mechanics (QM)) $\rightarrow \Delta t = 0$.

$(ic\Delta t)^2 + (\Delta x)^2 = 0$ (relativity) $\rightarrow \Delta x = 0, \Delta p = \infty$ (space & momentum uncertainty)

\rightarrow The starting point of the universe is energy (momentum) fluctuation ∞ , and **BIG BANG** explosion starts from **a single point in time and space !**

☞: After this, **hydrogen nucleus** becomes the origin of matter from vacuum polarization in phase transition of gauge field dynamics process = proton formation reaction <the reverse of Yoshimura's proton decay reaction>, and after this the hydrogen nucleus during the cosmic expansion process, Stars are formed through gravitational aggregation, various elements are generated through **nuclear fusion reactions** in the central core, and in the end, a complete set of living materials is prepared.

(c) **Quantum mechanics Schrödinger's cat**: Collision reactions with the observed object are essential for observing **time dependent non-conservative physical quantities**. At that time, really **wave packet convergence occurs**, but the cat's alive or death is determined by conservative physical quantum state itself before observation. It's a big lie that *human consciousness is involved in the quantum state*.

☞: Charge density wave emission is true due to neuron charge fluctuation, and the reverse process = reception is also true)

http://www.777true.net/Quantum-Stochastic-Mechanics_QSM_the-Hidden.pdf

(d) It is a big lie that *life originated from space*, but the theory of sea floor hydrothermal deposits has been determined based on genetic analysis results.

☞: Space travel does not explain the origin of life.

(e) **Mathematics the basic theory**:

②(b) Gödel incompleteness theorem and Contradiction in real number 0 <Many experts do not understand! >. The real number 0 is a contradiction that cannot be determined as nothing. <A great success of the standard theory of elementary particles of size 0! ! >

<http://www.777true.net/img008-Quick-Guide-to-Quantum-Gravitational-Dynamics.pdf>

(c) Infinite arithmetic by G. Cantor, the great founder of modern mathematics = error in cardinality theory. It is impossible to prove that the cardinality of real numbers is higher than that of rational numbers. Error in diagonal reasoning. Due to the non-determinism of real numbers, **it is impossible to array real number by the size sequence**.

(f) **The world academic authority without recognition of the spiritual world, which is the task of this report !**
