

## **Synthesizing Economics toward Global Climate War Time Regime** . 2014/12/24

This is emergent petition to global economists toward synthesize **Economics toward Global Climate War Time Regime**. If you carefully surveyed **the situation at now**, the conclusion never fail to be either **global extinction !** or **global revolution !!!**. Also why such extremely emergent big problem has been hiding is explained.

### **[ 1 ]:The fatal causes of global ill minds of no concern on climate crisis at now.**

#### **(1)Mind of people in general at now.**

Certainly I became to hear frequently on increasing climate disasters in recent days, years. However such probability of becoming my disaster would be low as negligible for the time being. Above all, everyone around me never seems to think climate collapse serious. As usual, they has been using car, kitchen and room heaters with considerable oil consumption. By anyhow, unless **oil consumption**, my life and my job never work well.

**Now it is not climate, but securing job that has been ruling my life at all !!!.**

Therefore, they has never be told and will not imagine **coming desperate climate hell world of global mass extinction !!!<global ensemble synchronized paralyzing>..**

<http://www.777true.net/The-Ensemble-Synchronized-Paralyzing.pdf>

#### **(2)Mind of entrepreneur in general at now.**

An entrepreneur's strong instinct is entirely never causing bankruptcy of own corporate.

**Now it is not climate, but securing corporate that has been ruling their life at all !!!.**

This is absolute common recognition in capitalism international ally in the Bliderberger's global ruling. After all, this ultra conservatism has been intercepting revolution toward global salvation. That is "**Revolution is more terrible than defeating war**" <A member of Japanese imperial Fumimaro Konoe in the war time regime, Japan-USA war was initiated by the imperial Hirohito in order to evade domestic revolution due to withdrawal from China>.

A noble people (people once had gotten higher status by violence or..) has been in worry for their status decline. This is origin of causing **Satan** (once he was angel in heaven) who hates God <the truth, justice, philanthropy> and his followers (believers). He was expelled due to his arrogance toward Adam who was made from clay. Remember the cruel history, kings and capitalists has been terribly hating revolutionists <democrats>. Note author has no intention to accuse being capitalists is sin, but **not admitting their fatal failure** (causing climate crisis and the consequence of global extinction). Now they has been hiding the fatal facts by their massive money power. After all, their final relief would be to admit their fatal failure and to cooperate in fixing deadly climate environments. Above are too evident and rational, don't you think so !!!.

[ 2 ]: **Decisive countermeasure against global minds of no concern on climate crisis.**  
All of you must be **soldiers** by declaring and starting **global climate war time regime!!!**.

(1) **Emergency of Arctic Cooling geo-Engineering with CO2- 80%reduction.**

In fact, climate had been entirely worsened to need **emergent countermeasure** such as **Arctic Cooling geo-Engineering**. So long as preventing **Arctic Methane Catastrophe**, **global mass extinction would have been evading\***. So this is the most emergent global top problem to be fixed. The geo-engineering needs **global ability** with money and manpower.

<http://arctic-news.blogspot.jp/>

\*) Note global temperature rise would cause it more difficult to accomplish the engineering.

Therefore possible **max 80%reduction**(0.3~0.4°C rise, this is not safe) is necessary.

Then **new energy technology** become emergent. Especially note It is **declaring and starting global climate war time regime that would accelerate the R&D !!**.

It is the low cost oil that has been intercepting the R&D.

(2) **The evident fatal validity of IPCC projection <no temperature recovering !!!>**

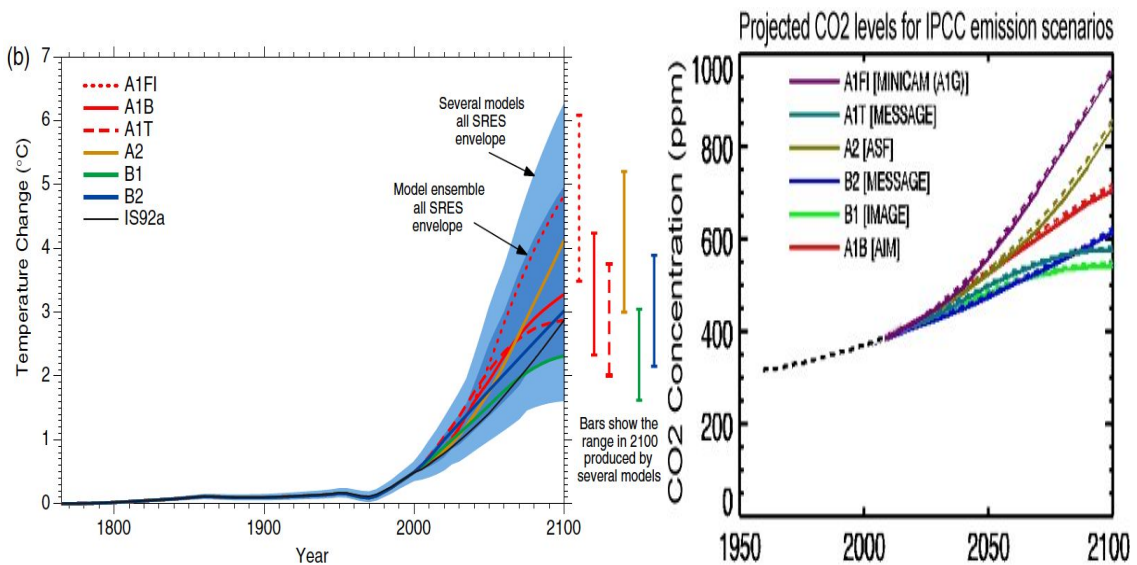

**IPCC has nothing simulation on temperature recovering to now state.**

Also this is fatal. By temperature rising only, it is too evident that globe becomes full disastrous toward extinction.

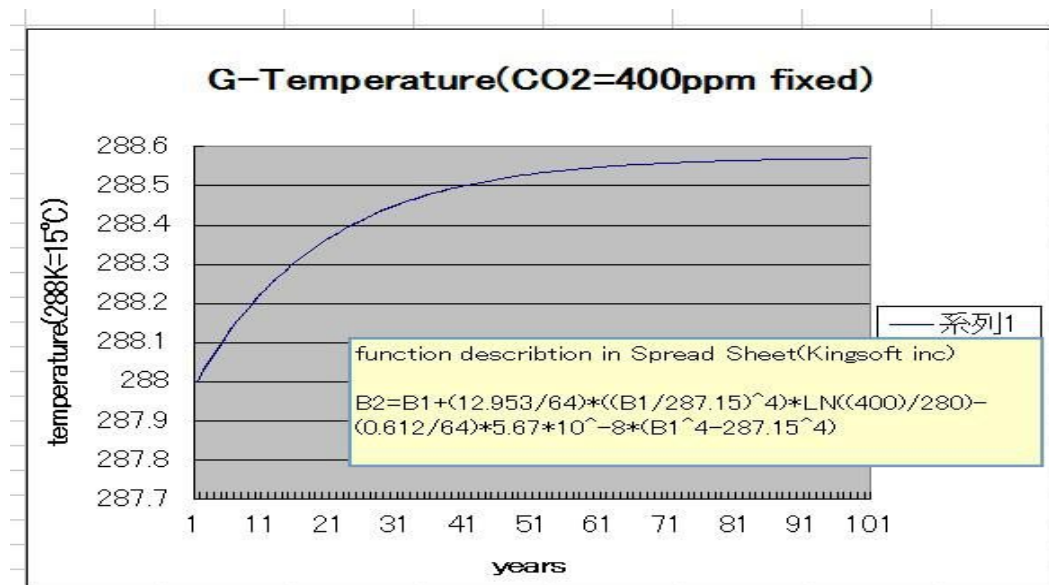

**IPCC Temperature Prediction with emission scenarios**

<http://www.skepticalscience.com/iea-co2-emissions-update-2010.html>

(3) **Stopping CO2 concentration rise** needs about **50% cut**, even which could not be salvation. Because temperature would have been rising only, but not turning down.

(4) **Only by more than 80% cut**, temperature could turn to down, which is decisively necessary for the salvation with **minimum climate damage**.

Then **Arctic Cooling** must be implemented simultaneously, which is **global emergent task**.

The verification of above simulation is showed in here.

**[ 3 ]:Emergent synthesizing Planed Economy toward global climate war time regime**

This is you economist's emergent and decisive work toward global salvation !!!.

<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

Above page is a trial version,and far from completion !!!.

**PS:**

Certainly you are economists,but not climate experts,so you would encounter difficulty to judge true or false in details of climate conclusion.However economists are mathematical engineer with market psychology-analyst. I wish you could judge by [ 2 ] and by Appendix.

[The best way is getting sinside climate expert friends !!.](#)

Note author is also not climate experts,but engineer of applied physics at now.

**postscript::To live or not would depend on economists !!!**

Australian climate scientists were first advance nation people who encountered severity of climate change in the world and some of them proposed **radical climate policy**.

One of those is that scientists should lead managing global policy.This may be reasonable, but climate scientist would encounter difficulty in economic calculation<planed economy>.

Then author wondered why they did not call for economist in their group.

By anyhow, only planed macro economy in climate war time could relief this world.

## **Appendix\_1 : Why IPCC has been of no use<the their fatal injustice> !!!**

Allowing more 1°C rise by IPCC never be salvation at all !!!,

Why such ridiculous event could happen in this world at now ??.

Those has been conspired **the Big Oil Merchant Rockefeller** who had once supported NAZIS establishing at that time.After the war, they imported NAZIS person and technology to USA<operation Paper Clip>.Their ideology is **supremacism**.*Nation and the people should be exploited by supremacy the hereditary.Set enemy and make perpetual war<the 9/11>*.Their conclusion at now is **operation EndGame**.

*For the **New World Order**, a world government is just the beginning. Once in place they can engage their plan to exterminate 80% of the world's population, while enabling the "elites" to live forever with the aid of advanced technology. For the first time, crusading filmmaker ALEX JONES reveals their secret plan for humanity's extermination: **Operation ENDGAME**.*
