

## **How to break the trap and reconstruct old good regime ??!!!** 2014/6/6

For the time being, at first, we **must intercept war** unnecessary, meaningless, but harmful between China and Japan. **Then why such absurd possibility would happen at now??**. This might be proposing to make big reforming **the corrupted regimes** who has been being manipulated by the foreign nation. That is, our rulers has been unconscious betrayers. This is the report on how to cause **corrupting nation** (both people's mind and life resource environment) and on how to reform by big co-operation. Now massive stupid people has been neglecting possibility of **coming climate hell world** where only **agriculture** become decisive.

*Those who follow heavenly will do politics by righteous, while who against heavily will do politics by forcing.....Mozi <ancient Chinese Philosopher and Strategist>*

Some stupid **betrayals** both in China and Japan has been being manipulated to cause **own destruction**. Both are commonly connecting with **CIA-military industry complex**. A ruler often take insidious strategy setting up outer enemy to turn peoples hostility against oneself Especially it is risky now time when they face domestic difficulties in economy and politics

**World hegemony winning China since 600 years<Japanese>.**

<http://tanakanews.com/f0129china.htm>

## **▼China became big nation by invitation of USA**

By seeing Deng Xiaoping reforming and liberating policy, the economic growth of China is not spontaneous internal will of movement, but invitation of USA. That is "we(USA) will invest China, so would you want growing to a big nation ?".

**▼Japan after the war had been brought up industrialized nation, but agricultural one by USA<author's interpretation>.**

They were given both technology and big market of USA after the political big dispute of **Japan USA security treaty in 1960**. At that time, most of Japanese were against with the treaty, of which aim is **ever lasting military occupation** on Japan. However era of Ikeda administration had started to promote **doubling income policy**, which turned Japanese's concern on politics to economy. As the consequence, they accomplished No2 GDP nation in the world. However, while people had become divided and selfish to lose **political solidarity**. While massive **agricultural land** had been devastated to be shrink-ed by industrialization. Massive **rich fishery seacoast** had been lost due to massive reclamation for industrialization. It is outrageous historical failure, which now has become very visible. Now Japan industrialization had become **steadily declined** due to lose its monopolic status in producing beneficial industrial goods in the global trend of enlarging Industrialization nations. **Note such trend would be cutting with each other in some day.**

## **Part2 : Abandoned nations by God are destined to own extinction ??!!!**

[http://sys.diamond.jp/r/c.do?XYg\\_36zz\\_rd\\_vow](http://sys.diamond.jp/r/c.do?XYg_36zz_rd_vow)

Note leaders of China, Korea, and Japan are all hereditary. A hereditary leader is one who did not experience the most decisive and important process of get higher status by own efforts and by **ability examined** by their colleague in an organization. A leader must know way and emotion of people's livelihood. **Without which, a leader tend to be a troublesome tyranny secretly manipulated by something higher powers(great father !!!)**. For the time, being they has been keeping good appearance only, but not do substantial tasks. This is the most dangerous symptom which might cause nation destruction. To tell from very beginning, modern far east Asia (China, Korea, Japan) were commonly brought up by so called modern WEST civilization, which had caused unconscious **inferior complex against WEST**. Or It had caused unconscious **self-disgust**. Sometimes those turn to hate own neighbour-er with each others. **But they tend to follow those who have something superior. Now imitation technology without careful examining on reactional hazardous effect has been ruling in far East nations.** We might get temporal and delusional prosperity for the time being, however those would turn to reveal reactional hazardous effect someday. Note author don't recommend being against WEST civilization, but warn an aspect of reactional hazardous effect. We should not be greedy, but should live within our reach. A way of traditional life (**agriculture**) based on own property is not so bad, but those would become evident to be righteous before long. Now **the climate change** has been accelerating as time goes on, which is drastically to turn worth concept in life. Or we never fail to encounter **famine hell world** before long.

### **Part3 : The mystery of Ancient China Science and possibility of the recovering at now.**

Perhaps more than 10 years before,author happened to watch TV where a Chinese is manipulating **remote flying dish** by so called **hand power**.About radius 10m ?, a dish was circulating easily with invisible string(?) of his center.Many people are watching it !!!It is astonishment never be seen before and after. After that time,he happened to find magazine "mu(1985/8)" of which special issue was "**The marvelous ancient China's super science civilization**.It's almost SF where air plane,missile and robot weapon are described. (Actually,so called 漢方藥,鍼灸治療,四柱推命,圍碁,etc are popular and pragmatical at now). Is it really ???.Then why disappeared ??????.The magazine repeatedly stated that "China history is entirely singular,because ordinal civilization is advancing as time goes on,while that of China seems upside down".That is,**as time go back ,the history becomes more marvelous !!**. Is it really ???.

It is right !!!Also author noticed **Mohism**(430BCE) which is a kind of **advanced religion**.

<http://en.wikipedia.org/wiki/Mohism>

They frequently said "**follow to heaven's intention**". "In order to establish decent society,

(1)**mutual care without any discrimination**(philanthropy)

(2)**no invasion**,but defending war skill.

It is marvelous that (1)(2)are entirely same as **Islamism(Christianism)** revealed by **Muhammad(Christ)**.

<http://www.777true.net/the-upside-down-WEST-propaganda-world.pdf>

Also author guess that **other marvelous ancient civilization**(Egypt,Mesopotamia,Indus, Yellow river) might be commonly due to something heavenly. It may be a kind of paranormal communication with **the other world**.It may be a kind of **revelation by God**. Recent authors finding is that **the other world**(physical vacuum space)is **almighty** one.This is entirely a **logical conclusion** with a physical concept on **quantum vacuum**(in which Q and not Q are simultaneously realizable the contradiction world=almighty!!),against which none can deny.

<http://www.777true.net/Proof-on-God.pdf>

Some reference books told **Mohist** group are **outstanding one not only in advanced philosophy**,but also **skill in military technology and tactics**.The first unifying nation Qin in China(221BC) was told that their military support enabled the establishment.However after the establishment, they were told to be exterminated by the emperor(**burning of books and burying of scholars**).

After that time they suddenly disappeared from China history. On the other hand, the emperor after the dynasty establishing is told that he became eager in finding almighty knowledge on this universe. Perhaps Mohist were persons with ability to communicate the other world (**prophecy or messenger from heaven's intention**).

Any dynasty in west or east seems to hate those who teach **equality of people** revealed by **heavenly intention** and to suppress without exception. **It is to twist desirable history.**

*\* **Original teach of "Christianism" was democrat revolution, however the failure turned it ethics teach ..... Goethe.***

This is a kernel of mankind history. That is, **politics without people's equality** is against heavenly intention (ruling by Satan-nization predicted by Christianity, Buddhism, Islamism)

*\* **Secular world is upside down delusional one..... Panya Sutra.***

Note being against righteousness (= Heavenly intention) is upside down (a contradiction), which could not be nothing, but something disorder, unhappy, disastrous.

Authors conclusion is that any tyranny in west or east had suppressed **democrat revolution** and **paranormal ability**. Both are revealed by heavenly intention. Or tyranny might try to monopolize paranormal ability (genuine religion) to defend own regime ?!?!.

Hereupon author mention what he noticed in some topics relating Japan and China history. A Japanese samurai tycoon "Kenshin Uesugi" was also **strong God believer** with outstanding and marvelous tactics of almost 90% winning rate (maybe No1 in Japan history) in battles. His belief is also **no aggression** war by strong belief on **Bishamonten**. Samurai tycoon **Ieyasu Tokugawa** is the first one who accomplished unifying stable nation without domestic war about for 200 years long. Note also he was once **hostage** at that time of young ages, and baned Christianity transferred by the **Jesuit Org** (Society of Jesus) at that time. Those are quite similar with the Qin emperor.

In history, none should say *if history was something different from actuality*.

However if Mohism was major in China history, not only China, but also Asia would be far different as it is now. If we fail to follow heaven intention, we would encounter unhappy.

What have revealed to us after transient economy prosperity? People had become divided and selfish. Some are rich and haughty and some are more poor.

**Land, sea, and atmosphere with the climate had terribly devastated, now which are to destine our coming future of hell world or not.**

Now rulers conspire mutual destructional war. **This is nothing, but without mutual care and no invasion against Mohism teaches.**

**Thereby the Great Mohism Philosophy must be recovered at now !!!.** Once again note (1)(2) are the same teach also in Christianity and Islamism. Similar teach in Japan is "*Those who wish own stability must care whole one*<Nichiren>. Thereby, we could recognize **realizability of global solidarity by the simple, but strong teach by heavenly intention !!!.**

\* The most of concern of everyone may be **how to persuade many !!!.**

As for which, author noticed that it is important how few he could mention own opinion, but how many he could cite or derive theses

**by observed facts reported by others reliable**

**by logic, proof by mathematical,**

and

**by order, command, or phrases in holy scriptures revealed by heavenly intention**

\* **On music in Mohism and swine in Islamism.**

Those are certainly **baned items** in the scriptures at that time. As for those, there might be **rational reasons at that time.** Music instrument of nobility were too luxury than general necessary goods in peoples dairy life. Note **gluttonous by no art skill**(無芸大食) is more bad than cost of music instrument at now. In the era without refrigerator, eating swine was **insanitary** and dangerous. At now swine is cheaper than beef for poor people. Author consider that **God who order us to establish decent society** may be generous and merciful enough to allow those.
