[1] : Summary of the current situation of the world.

(1) None will tell, but all is due to the failure on Climate Counter Measure till up to n2020

(2) In coming climate worsened world, at 1st foods supply would corrupt, as the consequence, social instability would be inevitable. The ruling class fear those by anything else.

(3) As the consequence of (1)(2), at 2020, DS the Nazis reincarnated USA began operation **anti-class pseudo wars** such as {Covid pandemic, Ukraine war, and Gaza war} toward the final survival war of operation End Game<the depopulation plan>..

(4) Trouble costs the world wide had soared many priced of goods to begin people suffer. While people had become **sheep** due to the unprecedented prosperity after the war. Above all, the outrageous success of business had succeeded to make people to obstinate "**business as usual**". It is which that had caused the fatal failure of climate counter measure.

(5) There is a law that says that a person who has lost his ability cannot be held liable for their failure. The top leaders of USA now are such persons. This is terrible matter not only for USA, but also for the world. Once D. Trump was rare person who resisted the DS ruling, but now he had awfully turned from who he was. The attempted assassination by gunfire shortly before his inauguration, the repeated scandal attacks after his inauguration, and the recent precision shooting at Charlie Kirk the intimate friend in 2015, all left invisible scars inside him. These are not accidents, but plots well planned.

The French president brutal reign of terror would be in its final stages. The world support the brave French people..

(7)China's climate-economic-political the total collapse is causing massive people's suffer.Ukraine, which many ignore, instigated the Ukrainian war with lawless attacks on Russian-populated areas, but Russia now is also using the war as an excuse to strengthen domestic dictatorial reign of terror.The people of both countries are suffering terribly, and I don't think this regime can last.

(8)Latin America, the Middle East and Africa are also heading towards hell, but the voices of truth are not reaching deaf Europe and the United States.

[2] : Leaders without truth can not save now world.

(1)President Trump told the big lies on Climate,and the Wars.

<https://www.bbc.com/news/articles/c179p4wvz29o>

He visited UK royal (the enemy of mankind) .When he start losing, he start showing off.

(2)It is painful for author himself to refer this issue now that dealing with climate collapse has become more difficult, but no one can escape the deadly facts. There is a better solution in every situation, but it must be based on the facts.

In any ways, if the status quo continues, the worst hell will await us, because those in power are forcing it on.Because those who fear the decline of their status become Satan.

It is selfish people who make hell <Swedenborg Principle>.
