

## Scientific Mechanism of "Prophecy" by Dipole Chain.<sup>09/12/20,,,'2025/4/23,25,26.</sup>

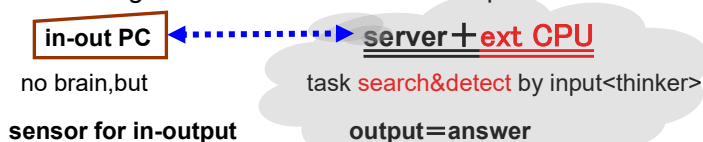

☞: As is told by prophet themselves, the future can be changed by our will.

☞: This report pursued truth entirely by standard science position, but not by any hypothesis. Prophecy (revelation) by spiritual ability is real, the validity is explained by **almighty** of vacuum space the other world due to the **logical contradiction realization (explosion theorem)**. It is also communication through clouds computing with cable called **dipole chain**, which now had been dramatically proved by being healthy persons, but without parts of brain. That is, his original healthy spirit of conscious is in clouds (quantum vacuum field). "Spiritual Prophecy" in unprecedented emergent era now must be regarded as the most precious and the final warning.

### [O]: The Easy Whole Viewing.

#### (1) **Clouds Computing via Network Cable from Ground.**

No Internet times, people worked before computers, but now they can work on clouds by connecting to server with external computer the via network. A typical example is AI.

#### (2) **Human conscious can be clouded** <a decisive evidence of prophecy mechanism-1>

**Consciousness can exist without a brain, .....**

<https://indeep.jp/is-your-brain-really-necessary/>

*A thorough examination of his head revealed an almost complete loss of brain tissue....., The man led a normal life and had no problems seeing, feeling or perceiving things. ....UK Neurologist Professor John Lorber found that of the approximately 60 children with the most severe forms of hydrocephalus and brain atrophy, the half had IQs above 100 and led normal lives.*

#### (3) <a decisive evidence of prophecy mechanism-2{cable & ex-CPU (spirit searching)}>

**Entirely as upside down, "anything can be" in vacuum world, therefore being of cable connecting to there enables "clouds conscious to see".**

In clouds (=almighty vacuum), not only own conscious, but also almighty awareness.

#### [1] : Logic toward Explosion Theorem <EPT=contradiction>.

**Anything Can Be** in quantum vacuum world the parallel running universe.

a **complete fullness** !! by Logic with quantum vacuum physics of  $0 = +M - M$ ,

#### [2] : Singularity of Zero or Vacuum World <miracle in science>:

Real number = 0 is nothing, and not nothing at the same time <by EPT>.

#### [3] : Communication between this and the other world by **Hyper Dipole Chain**.

quantum vacuum physics of  $0 = +M - M + M - M$ ....., a hyper dipole chain.

**\*\*APPENDIX-1: What is CONSCIOUS** <by input task, search (light) and detect >.

[ 1 ] : Logic toward **Explosion Theorem**<EPT=contradiction>.

[http://www.777true.net/Logic-the-most-simple\\_but-supreme-way-for-recognition.pdf](http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf)

☞ : Beginner can get full know-how on Logic the supreme science from above.

(1)**non-contradiction.**

A contradiction never **realize** in our visible material world. A merchant say *"this spear can break through any shields, and this shield can block any spears". Then a passerby asked the merchant "If you try to break through the shield with the spear, what would happen?"*,....

Simultaneous realization of affirmative proposition  $\equiv Q$  (if cause A, then result B) and the negative one  $\equiv \text{not } Q$  is impossible in visible material world. You never could see the W images of affirmative and negative realization. It is origin of **causality**, because unique result by unique cause  $Q \equiv (\text{cause } A \rightarrow \text{result } B)$  becomes **true** (realization observable).

(2)**negation of material world is vacuum world**(**nothing is contradictory !**):

$0 = +a - a$ . Left side is nothing, then what is right side?. Not nothing?!

Left is entirely nothing, while right has simultaneously cash "a" and debt "a".

Thus nothing is simultaneously nothing and not nothing. It is **contradiction !**.

[ 1 ] : (2)☞ : You never can tell the most large natural number M, which is infinite. On the other hand, consider  $Z = 1/M$ . Z is smaller than any definite rational number.

Thus Z can't be any positive number, but except **real number zero 0** (nothing).

Then M is indefinite. So real number 0 must be also simultaneously indefinite. Nothing must be indefinite. It is also contradictory!.  $\Rightarrow$  [ 2 ] :

(3)**Contradiction enables anything can be ! = almighty**<**Explosion Theorem**>.

Q and (not Q) is everything.

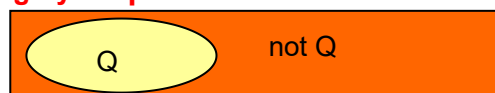

Once a contradiction could be, then

anything becomes true (realizable). It is breaking down of causative law.

This is **the supreme almighty world, but invisible except miracle**.

☞ : This is the fundamental theorem in standard logic <**Explosion Theorem**>.

APPENDIX1: The strict proof on contradiction enables anything turn to true in propositional logic.

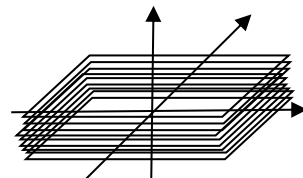

(4)Extremely summary to tell, non contradictory material world where both negative and affirmative visible phenomena never simultaneously be realized is called causality (**physical law**), while non material world (vacuum world) is contradictory, where anything become possible (**almighty world without law**).

(5) **Anything can be seen in parallel running universe.**

☞: **A prophesied future can be changed by our will, as is told by prophet themselves.**

The most mystery is why prophet can see on coming future, some told as they had actually observed the event. A possible answer is infinitive **parallel running universe (anything can be there) in (11+1) dimension space time in quantum vacuum field.**

Our current universe is (3+1) dimensional, while the original universe was (11+1) dimensional, and due to quantum space-time symmetry, it is possible for there to be infinite number of parallel running universes like ours in the extra dimensions.

2dim parallel running universe

A possible validity of prophecy is their observing very similar event, but in time advanced different world in different universe, thus the information is extremely effective to **change our future by our-selves will**. This fact (changing possibility) is stressed by prophet themselves.

\*Figure on the right shows a model in which infinite number of two-dimensional universes (x,y) run parallel in the extra z-axis direction. The prophet's soul in our world would see the very similar future by observing the universe ahead of our time.

## [ 2 ] : Singularity of Zero or Vacuum World<miracle in science>:

A confused interpretation in math-physics has entirely been being due to a decisive lack on the recognition on “real number 0” the hidden **indefinite nature**.

### (1) ”Real number is contradictory both nothing and none-nothing.

[ 1 ] : (2)☞: You never can tell the most large natural number M, which is infinite. On the other hand, consider  $Z = 1/M$ . Z is smaller than any definite rational number.

Thus Z can't be any positive number, but except **natural I number zero 0(nothing)**.

While M is indefinite, so real number 0 simultaneously can not be definite.

**Nothing=0 must be also indefinite due to the indefinite M. It is contradictory!**

### (2) ”Miracle” in Statistical Science Definition.

Finite probability  $1 \geq P > 0$  is defined by

$P = \lim (N \rightarrow \infty) n/N$ .....where n is outcome, while N=total trial=∞.

Especially note, if n=finite, then P=0.....This is nothing, but miracle !!!

### (3) A standard science **truth** demands **observable endless repeatability !!**

In quantum physics, a physical variable must be **observable**, in fact, they could have established the mathematical foundation by so called Quantum(Observation)Logic. , however they also admit **no observability** (such as vacuum) is **not always mean nothing**.

Gödel Incompleteness Theorem and Statistical Phenomena (Pan Statistical Theorem)

<http://www.777true.net/Goedel-Chaos.pdf>

### (4) The Decisive Actuality of **real number 0** of Elementary Particle Size !!

*“An elementary particle is entirely not such a billiard ball, but something ghost like one”.*

Size of elementary particles size are zero in **the standard theory** strongly supported by the many experimental facts. After all, none could have succeeded in non standard one.

It is similarly to say **a bubble in boiling pot** of stew field, generating from nothing, and vanishing before finite size. An elementary particle is a memory of the physical quantity in non local vacuum field. In fact, spot space  $= \Delta x \rightarrow 0$  in vacuum field, has infinitive hottest kinetic energy  $(\hbar / \Delta x) = \Delta p \rightarrow \infty$  due to uncertainty principle in quantum mechanics.

<http://www.777true.net/img008-Quick-Guide-to-Quantum-Gravitational-Dynamics.pdf>

<http://www.777true.net/Troublesome-Illusion-of-Elementary-Particle-Physics.pdf>

☞: The established academy will not admit the completion of elementary particle theory in above

(1993~1995), while SSC (elementary particle experiment device of 12B\$ in USA) in half way of construction was once cancelled in 1993, and will not reconstruct.

[ 3 ] : Communication between this and the other world by Hyper Dipole Chain.

**Cable Forming** in quantum vacuum physics of  $0 = +M - M + M - M \dots$ , a hyper dipole chain.

(1) **dipole of  $\pm$  particle in vacuum field.**

$$0 = +1 - 1 = +1 - 1 + 2 - 2 = (+1 - 1) + (2 - 2) + (3 - 3) + \dots$$

The left term is zero of nothing, while the right terms are **full natural numbers set**. It could be generalized full real numbers of set  $\{0 = +a - a | a \text{ is real number}\}$ . Summary to tell, our vacuum world of empty space is just such structure of  **$\{0 = +a - a \text{ // } +a \text{ is any matter, while } -a \text{ is the anti(negative)-matter with attraction force of negative energy}\}$** .

(1) **dipole=Vacuum Polarization:**  $0 \rightarrow \{(+a) \leftarrow G \rightarrow (-a)\} \rightarrow \{(+a) \rightarrow G \leftarrow (-a)\} \rightarrow 0 \rightarrow \dots$

Hereupon, it is world widely admitted that a physical vacuum could become simultaneous creating **positive elementary particle** and the pair **negative one** which has symmetric physical value (but except the positive energy). Being of the pair particle is called **Vacuum Polarization (or Dipole Ghost)**. Both positive and negative particle energy are canceled with **negative energy of gravity** one between the both  $= G$ . **Thus complete cancellation is done.**

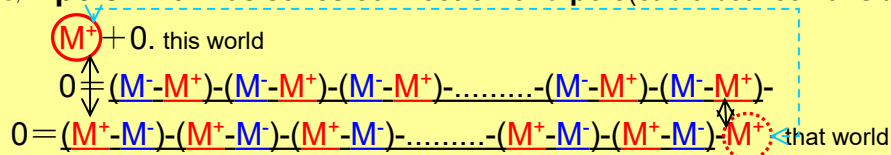

(2) **Hyper Dipole.**

Then note vacuum polarization (**dipole ghost**) is not only for elementary particle phenomena, but also for **any compound matter** of  $M^+$  and the negative pair of  $M^-$  as the dipole ghost. This marvelous fact was found due to Fadeev-Popov Ghost reaction in General Gauge Theory.

<http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf>

A vacuum world is filled by any possible form of matter with the symmetric antimatter pair  $\{0 = M^+ - M^-\}$ . Especially note that any possible form (situation, mode, stage) could be possible. It's just an **almighty world**. In the other word, a vacuum world (**the other world**) is one where anything could be !!.

(3) **Dipole Chain as series connection of dipole (cable between this and that world)..**

This is instantaneous **spirit trip** to that world from this world by dipole chain. It is called **astral projection** in spiritual world. This quantum reaction is reciprocal between **up** and **down** sides.

It is so to say a **hyper resonance** between those.

☠ : How to initiate hyper resonance is unknown for author. Some indicates **strong mercy** of that world.

**Reference:**

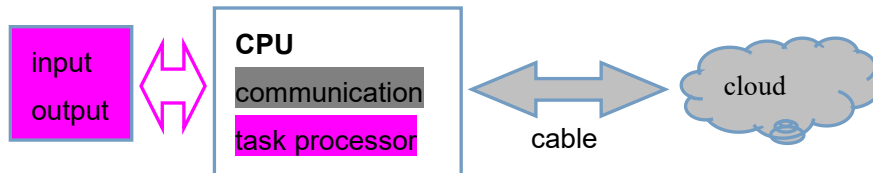

<http://www.777true.net/img008-Quick-Guide-to-Quantum-Gravitational-Dynamics.pdf>

<http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf>

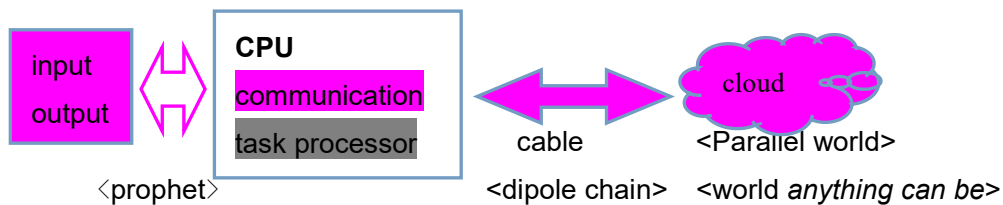

#### (4) Interfacing with Spirit in Almighty Clouds .

Now author can not know the details,however the whole block concept is as follows.

##### (a) Stand Alone Computing.

##### (b) Clouds(Spiritual World) Computing(Communication,Observing).

##### (c) Case of Healthy Person,but missing brain parts(task processor in clouds).

Luckily they could save communication processor with cable to do task.

##### (d) Case of Prophet(task processor in clouds).

Luckily they could save communication processor with cable to do task(prophecy).

As for them,clouds is almighty spiritual world to observe coming event in the other world.

#### (5) The Kernel Summary Points in [0],[1],[2],[3],A1,

① Clouds Computing<spirit connection(cable) to the other world(clouds)>.

② Explosion Theorem< EPT> *Anything Can Be* in quantum vacuum world of the parallel running universe.

③ Real number=0 and vacuum field Singularity<miracle in science>:

Real number=0 is nothing,and not nothing at the same time<by EPT>.

④ Cable Forming:

Communication between this and the other world by Hyper Dipole Chain.

quantum vacuum physics of  $0=+M-M+M-M\dots\dots$ ,a hyper dipole chain.

⑤ Spirit=conscious(function)=searching and detecting task(mission).

the function can be both in this matter world and the other vacuum world,

## APPENDIX-1:What is **CONSCIOUS**<search(light) and detect by input task>.

A life is non closed system with perpetual flow in and output.In order to control it, **conscious is function** to manage task input accepting,searching and detecting target.

☞; This is quite analogous with AI, ①input accepting **task**(awakening conscious),  
②searching in heuristic synthesizing and detecting **target** toward output(**conscious**).

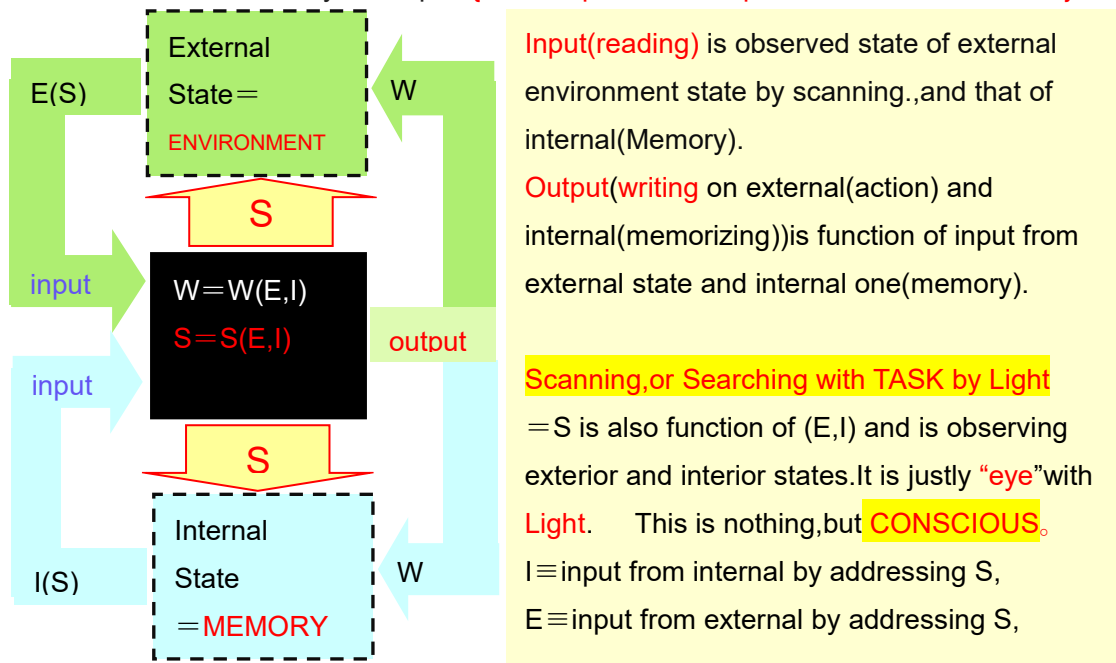

This is internal self-dependent automatic running, but not dependent one as CPU<**plasma ball**>.

A heuristic degree is largely reduced by learning as pre-searching memory field.

☞; externally ordered synthesizing target toward output(**program counter in CPU**).

(1)**AUTOMATHON**:This model is life in general,which is information flow by **lighting**.

Note the fundamental key concept is{ **read=input,write=output,and search with TASK**}.

(2)To have seen without doubt is to **believe(understand)**,

which is to stop searching(thinking). That right, TV set is called **idiot box !**.

(3)So long as being **doubt**, searching(thinking) is going on toward solution.

Doubt may be judgment on something **unatisfaction** between **TASK**(this is also in memory) and current input from memory(=**imagination as a solution possibility**).

**Unatisfaction with TASK is a fundamental force to drive searching action**.

It is also called **desire**.

(4)**imagination** is created memory at now stage by searching(**lighting**) many memories.

For example, searching{1,+,1}is to yield image{2}, where each components of bracket is single memory. Thus searching light is not single, but **multiple**. Let us imagine pianist's finger motions, which is response(input) from multiple search lights on memory.

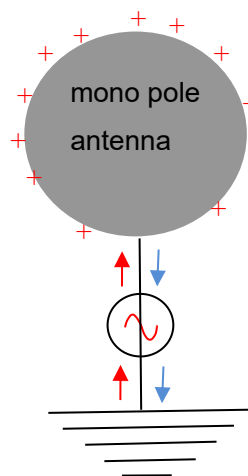

\*Listen very carefully this marvelous music,author could not help,but consider he may have simultaneously two Independent,but **resonating** souls of right and left hands.

**McCoy Tyner - Echoes of a Friend**

<https://www.youtube.com/watch?v=pESgeJejZLg>

## **APPENDIX-2:As for CDW(the radiation needs no energy ?!!!).**

Charge Density Wave is radiated by source of **charge density** varying in time.The most curiosity of the radiation is **nothing necessary energy**.While ordinal electromagnetic wave radiated by current density source needs energy as you know by portable phone.

Left fig is so called **capacitor** which absorb **charge** at the conductive surface,at where **CDW** is to be radiated toward exterior.Note a capacitor never consume energy,because alternate discharging is to output energy as same amount of input energy.While radiated CDW itself has positive energy,while it is with **negative energy** due to **attraction force** between positive charge and negative one.That is,  $0 = +E - E$ . Energy Conservation Law is still alive. Finally the negative could become negative energy of gravity field.

<http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf>

Precisely to tell,**static electricity** and **the wave-nized one** is different in its mode of space propagation.However effect may be the same,.because it is entirely charge,but not current with magnetism, CDW is entirely nothing component of magnetism.While ordinal electromagnetic wave is with magnetism as is the word-itself.

CDW is generated by neuron cell surface, of which is charged by chemical reaction in cell by triggering something stimulus. In the contrary,neuron cell can receive charge signal from exterior to stimulate **signal propagation toward neuron cell network**(brain).It is just **information** for brain. As for energy technology(author's job)by CDW is at here.

<http://www.777true.net/BWG.pdf>

**APPENDIX-3:** *There are many "alternate universes" in this world, and somewhere there is "another you" living the exact same life as you.*

**Parallel universes are real**

<https://www.nikkei-science.com/page/magazine/0308/another.html>

*Is that ridiculous?.No, the latest observations about the universe suggest the existence of "parallel universes." This is not just an absurd idea.*

**Here's Why We Might Live in a Multiverse**

<https://www.scientificamerican.com/article/heres-why-we-might-live-in-a-multiverse/>

*Several branches of modern physics, including quantum theory and cosmology, suggest our universe may be just one of many*

**APPENDIX-4:The Fundamentals Completion of Quantum Mechanics**

**toward establishing "Quantum Stochastic Mechanics".**

p14/15:APPENDIX\_3 : Paradox of 2 Slit Diffraction Pattern by 1 electron.

p14/15:APPENDIX\_4 : Paradox of Schrödinger's Cat

[http://www.777true.net/Quantum-Stochastic-Mechanics\\_QSM\\_the-Hidden.pdf](http://www.777true.net/Quantum-Stochastic-Mechanics_QSM_the-Hidden.pdf)

**APPENDIX-5:The Completion of "Quantum Gravity Dynamics(QGD)"**

SO(11,1) gauge unified theory of elementary particle to cancel 12B\$ SSC the elementary particle experiment device 1933 in USA.

<http://www.777true.net/img008-Quick-Guide-to-Quantum-Gravitational-Dynamics.pdf>

<http://www.777true.net/Troublesome-Illusion-of-Elementary-Particle-Physics.pdf>

[http://www.777true.net/Compensation-Petition-on-the-Needless-of-12B\\$-SSC.pdf](http://www.777true.net/Compensation-Petition-on-the-Needless-of-12B$-SSC.pdf)

Even amateur people can notice the end of elementary particle theory once an expensive budget eating nobility science by knowing a only concept **Lagrangian=wallet**.

① elementary particle theory is wave field dynamics.A dynamics is determined only by a so called **Lagrangian**<=action function>(a kind of **wallet**). Those act to pay least payment in the whole process 1). Note it is also economy dynamics of yours !!

1)  $dt \times L = \text{payment in } dt \text{ times.}$   $0 = \delta \int_{t_i}^{t_f} dt. L(t) \dots [t_i \leq t \leq t_f]$ , there is many possible way of paying= $L(t)$  at time= $t$ , however only the least total is done to be realizable,

②The Lagrangian is determined by so called **General Gauge Principle**(1956,R.Utiyama with expressing A.Einsteins **Principle of Equivalence**(1916)).However at that time, it was incomplete due to employing general curve linear coordinate.Then author employed local linear coordinate 2) to complete the theory(1993 spring).In autumn, USA declared SSC canceling in half way of the construction in Texas(DOE and American Physical society).

2):The paper was rejected for publication even though no miscalculation was told during the review process.

③**Quantization** of *General Gauge Field(GGF)* had already been established by Fadeev & Popov 1969...where *Quantization* means transforming GGF into elementary particle theory.

④ **Not only a mending, but author could have succeeded in its(QGD) test driving.**

(1)Creation Universe the Big Bang by gauge field dynamics by the stability criterion. **without man made models**, In the beginning was **a dot time-space** of  $\Delta t=0 \rightarrow \Delta E=\pm \infty$  energy fluctuation.If positive initial energy,universe once again back to nothing<stable universe>..If negative energy,universe entirely grow generating positive energy matters<unstable universe> toward canceling the initial negative energy< $0=+E-E$ >.

☞: This is entirely economy growing analogy with launching venture with initial debt.

At first,hydrogen nuclear=**proton** was generated by matter and antimatter symmetry breaking reactions among the symmetric quantum vacuum polarization reactions.

(2)Matter Evolution Process< below is also a math theorem of Lie algebra>

$$\underline{SO(11;1)} \supset \underline{SO(11)} \supset SO(10) \supset SU(5) \supset \underline{SU(3) \times SU(2) \times U(1)}.$$

Big Bang transition

our universe now of forces

(strong,weak,elctro-magnetic)

nuclear          molecule

(3)Macro **Newton gravity force** by variables contraction in gauge field dynamics.

(4)mass formula of spinor particles as interaction energy with frozen gauge field.

Higgs theory is a man made model, but not natural theoretical conclusion.

<https://www.aljazeera.com/news/liveblog/2025/4/26/live-israel-inflicts-manmade-starvation-on-gaza-as-new-attacks-kill-45>
