

-The World Wide Deception for co-living or going on fraud to perish,
or momentum of narcotism capitalism unstoppable- 2010/02/14

After USA without USSR had become an empire entirely pursuing world hegemony. They entirely expanded capitalism domination with military & conspiracy techs. Simply to tell, the ideology of the elites is that people are divided those who dominate(live) and who are dominated(perished) due to their supremacism. Both in domestic and abroad, **cia-military-industry-media complex** has been endeavoring to destroy those who try to disclose and realize **truth on co-live.** If current situation of the global capitalism be prolonged, we never fail to encounter abrupt and irreversible mass extinction of global life.

[1]: **Despair and Hope :Climate Change Catastrophe and singular USA with the world.**

If one came to feel being in a top of his proud prosperity with knowing fatal defects as own perishing, what would the highest pride elites do ?.

Conclusionally to tell due to facing present reality, they entirely would endeavor to conserve their established regime with suppressing the very inconvenience and with destroying their enemies. You would see a hell in near future if the current situation was conserved. Climate change catastrophe would perish life on earth.

(1) **The impact abrupt or irreversible means nothing relief if once realized (IPCC).**

http://www.ipcc.ch/pdf/assessment-report/ar4/syr/ar4_syr_spm.pdf (p13/22).

Anthropogenic warming could lead to some impacts that are abrupt or irreversible, depending upon the rate and magnitude of the climate change. {3.4}

(2) **Clathrate Destabilization in the Arctic is most serious scenarios (USCCSP).**

<http://www.climate-science.gov/Library/sap/sap3-4/final-report/default.htm>

In 2008 the United States Department of Energy National Laboratory system and the United States Geological Survey's Climate Change Science Program both identified potential clathrate destabilization in the Arctic as one of four most serious scenarios for abrupt climate change, which have been singled out for priority research.

(3) **The 2nd law of thermodynamics:**

A heat flows from higher temperature zone into lower one. Where is the lowest temperature zone in Earth?. Arctic is estimated to reserve 1400GtC of methane clathrate. Then 50 GtC release caused by heat input would be catastrophic.

Global surplus heat (caused by decreasing cooling radiation from earth to cosmic space by our emitting CO2) entirely flows into Arctic zone. As is well known, the global economy growth is a body with growing huge amount of CO2 emitting by consuming fossil energy sources.

(4) Hence, it's not economic growing, but is supreme problem to live or die.

Then the economy is also a serious and direct facing problem to live or die.

Therefore, the established global commercial media has been entirely reporting the global financial crisis only, but concealing on climate change crisis (CCC).

(5) Now author consider it not impossible to evade the global catastrophe.

However, the solution is not so simple.

(6) By anyhow, it's evident that unless all of us acknowledge the supremely inconvenient reality, there would be nothing beginning to relive. As was mentioned in top of [1], however, the current global situation is not as so.

(7) Above all, the elite of USA seems not be willing to acknowledge the reality.

The most emitting nation had not joined the Kyoto Protocol in 1997. The reason was mentioned in previous lines. They will not allow to reduce CO2 emission, but has been conspiring to reduce global population-itself.

The supreme aim of cia-military-industry-media complex just lies in there.

<<the operation EMD GAME>>. <http://www.prisonplanet.com/>

(a) USA is not democrat nation, but be **plutocratic** one operated by the wealthy.

Especially **Rockefeller** family who occupies most of wealth in USA is notable.

Originally and currently, they were monopolic big oil industry with many Cos.

NAZIS and CIA establishment were supported by Bush Family the skull & bones.

(b) (CIA-) **military-industry** (-media) **complex** the facsimile empire military nation.

perpetual war economy with flaming up targeted enemy <USSR, muslim nations, ..>

world domination by USA with narrow insight on many other culture nations

<http://www.777true.net/Mankind-destiny-anti-Christ.pdf>

http://en.wikipedia.org/wiki/Military-industrial_complex

(c) Projecting **New American Century** (neo-conservative (neo-NAZIS) strategy).

[http://en.wikipedia.org/wiki/Project_for_the_New_American_Century<2:Controversy>](http://en.wikipedia.org/wiki/Project_for_the_New_American_Century%2FControversy)

It's a culmination of national strategy of CIA-military-industry complex.

It's also **an excess belief on own power** for pursuing own desires. However

they would encounter difficulties in Iraq, Afganistan,, Japan, etc.

(d) **9/11 self-playing terrorism urged Afgan-Iraq illegal invasion wars.**

The worst 9/11 effect is the world becoming nothing accusing on the outrageous crimes. This serious effect would allow any illegal acts of empire USA in now and future <prison planetization with cruel torture and massacre by USA>.

[2]: Inevitability of self-decay due to failure of their Synerchism:

*A. Sutton, K. Millegan, Fleshing out skull & bones, Trineday LLC, 2003, USA.

The secret society of skull and bones was established by W.H. Alfonso. Taft in Yale university in 1883. Then they employed their fundamental ideolgy (insight on the world) from that of F.W. Hoegel in the feudalism dictator Preusen in Deutch.

(1) **Synerchism (or facsism):**

Absoluteness of nation (dictator) the rational. In the nation, nothing individual, being entirely a tool for nation. They are those exploited by nobility.

*Bunt's experimental phychlogy is a science manipulating man-mind into cattle.

(2) **Dialectic** the strategy making historical hegemony struggle by setting friend and enemy and by determining win or defeat. For the purpose of hegemony expansion (phylosophy pursueing own desire), it's intentionally flaming up enemy to make perpetual struggling with an excuse for enhancing internal domination.

*A peaceful era is a white page in history, of which tediousness is not suitable for humankind (Hoegel).

(3) Endeavoring on realizing own desire, narcissism (satanism) - charity (christianism) rioutous pirate phylosophy without low order, no acknowledgement on own error.

(4) Absense of a broadband sense of "balanced order with charity and generocity" for many others becomes inevitable own decay at last = uni-culture.

(5) **Democracy** is an ability of self-correcting by free mutual criticizing, while synerchism is not. Thus the latter could not evade own failure.

(6) The evidence is world war the 2nd, when the democrat nation alley won, and the facsism nations were defeated.

(7) USA is not a democrat nation, but a synerchysim one. Unless drastic change in USA, the world would be perished without relief.

[3]: Political Interferences on Abroad Nations non Favourable for USA.

<coupd' a' tat by military(or police, proceutor beurocrat)right wings>:

Recent remarkable event in South America is the Honduras coup d' a' tat, which purged the leftist president Zelaya in 2009/6/29. This was conspired USA, however, they accused the coup d' a' tat by right wing military power for the first time. But the reality is upside down. It's the first betray of Obama and Clinton. "These are evidences of the coup d' a' tat supported by Washington in the behind".

*<http://eigokiji.justblog.jp/blog/2009/07/post-eea7.html>

[4]: The pseudo coup d' a' tat against the statemen in Japan by CIA proceutor.

① Japan after the defeated war has been a colonial nation, where dominating class (emperor, established-enterprisers, beurocrats, media) are faithful for benefit for USA the first (It's CIA fundamental motive in abroad).

<http://www.777true.net/slave-japan.pdf>

② The Tokyo district special proceutor (TDSP) was established in 1947 for detecting hiddenn treasure lost in underground store of Japan Bank by occupational army (GHQ=General Head Quater=Pre-CIA). Since then, they has been entirely inspection beurocrat for detecting **person and statemen unfavorable for benefit of USA**. Their aim is cracking down independent movement in Japan. Why could the elites become betrayer against own nation Japan ?. Most of the elites are educated the evil skill of CIA with brain-washing in USA. They consider their tail wagging for USA is an easy benefitial of own.

A CIA conspiracial principle is manipulating person the vigolous and rotten.

③ In Rockied scandal in 1976, Tanaka-Kakuei the former premier became the biggest victim in the history. The scandal was internationally wide conspired by USA. He was an uncousious independent movement leader with talent on policy making.

<http://www.777true.net/Tokyo-spe-proceutor.pdf>

After 34 years, independent movement was activated by JDP (Democrat Party). Then the leader was Ichroh. Ozawa, whose master was the wellknown ceased Tanaka.

④ In 2008, JDP demonstrated the open debate on disciminating policy priority with the budgets, which has been substantially occupied by the conservative and corrrpted beurocrat system with long dictatorship of LDP and with behind CIA since 1945. The demonstration made most Japanese seriously frightened for their corruptions. The ancient regime power with CIA terribly became worry.

⑤ Pseudo coup d'état against JDP by CIA.

In 2010/1/15, his three subordinates were suddenly and violently arrested for essentially slight crime doubt on regulation law on political monetary fund report by TDSP. Simultaneously the corrupted big media had begun bigger propaganda against Ozawa with fraudulent doubt of Ozawa being dirty bribe politician. It's entirely analogous scale to that of Tanaka at that time. It's **pseudo coup d'état against JDP** government with the substantial leader Ozawa. Some validity on relating CIA in Japan could be seen in following.

<http://www.asyura2.com/10/senkyo79/msg/352.html>

⑥ The validity on Ozawa innocence:

(1) It's very simple. Because in his longer than 30 years statesman career, he has always been in very conscious on his enemy the TDSP. He never could be a politician who deal bribe in his behind. The statements detected by TDSP were all members of Tanaka followers (the Keisei group), of which political enemy the Seiwa group known as USA follower in LDP never be arrested by TDSP.

(2) The reality is upside down. Because, TDSP is biting with the innocence certification itself. In political money shifting, Ozawa group (Rikuzan-kai) make it rule to employ commercial bank accounts in which they finance in order to make also semi-official records. Evil media propaganda was made for it as money cleaning for bribe.

<http://www.777true.net/Tokyo-Prosecutor-the-UPsideDOWN.pdf>

(3) Psychological war aiming for dividend the leader from the nation people:

It's not a kind of elegant (?) psychological war, but is a manifest violent challenging against persons doing justice in order to induce (nervous) sick. Yes, it's a pseudo terrorism by right wing supported by **the back-biter CIA.**

(4) After all, TDSP could present nothing manifest evidence on doubt of their bribe blamed concerning with Nishimatsu and Mizutani Co in the evil media.

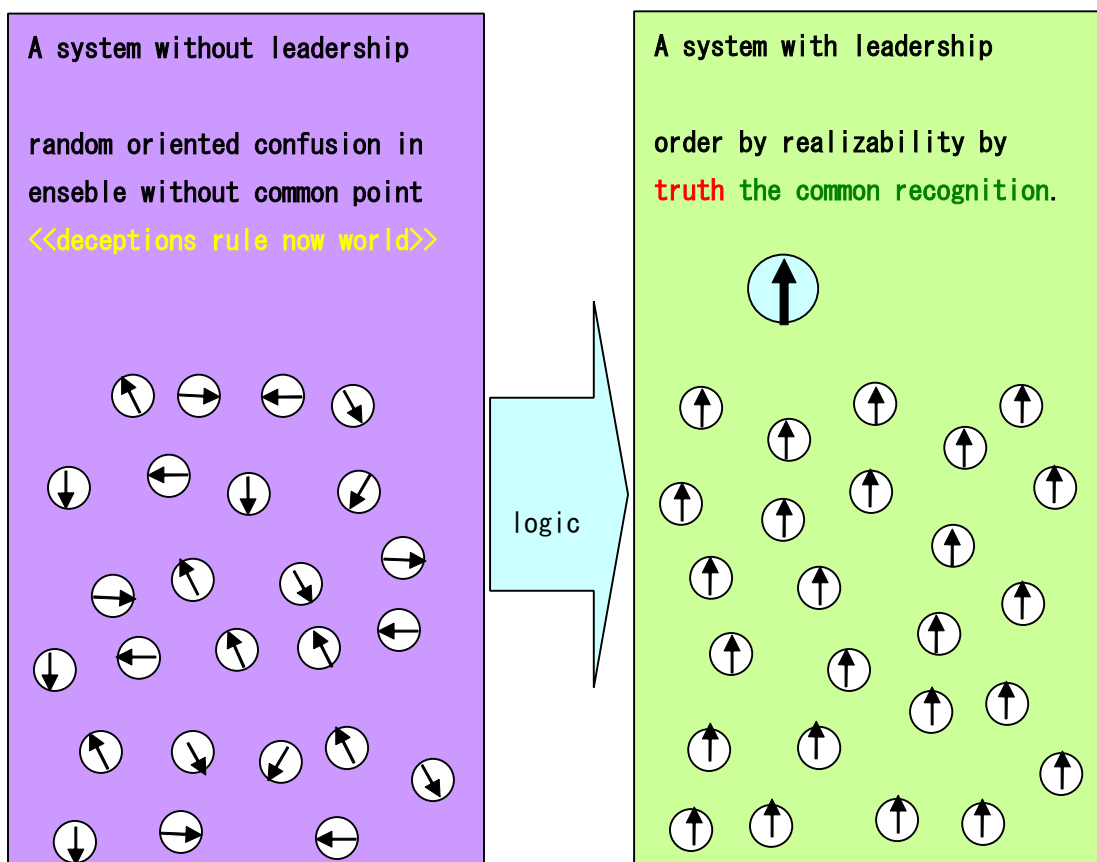

(5) Deceive more people so long as next election ended !!:

The betrayers intention is evident, deceive more people as possible longer by utilizing evil media propaganda deceptions. Since, the LDP member fear for nothing more than deceived people who could rule election.

(6) People with free website support Ozawa, while one with fraud mass media not do. Nothing could be more **evidence on the deception by mass media** than mentioned in above. Fact similar to this is not only in Japan, but also in the world.

⑦ As for Ozawa, what CIA are terrified ?!:

- (1) He is frequently told talent in operation in election and policy making.
Consequently LDP the long term dictatorship with CIA was destroyed by him.
Above all, his strong will to make Japan as an **ordinal** (independent, free, justice) **nation** is inconvenient for benefit of USA.
- (2) Especially Japan's international relation with China make USA nervous. They worry on that Japan instead USA would take advantage in the relation. This situation was also told for Tanaka(1976) who established the relation.
- (3) Japan is a bigger creditor nation for USA. That is, the nations's role has been serving their commercial, political and military profits to USA.
- (4) It's individual ability which might have changed world that they fear for.
CIA is a function who endeavor to conserve status quo in USA elites.
Yes, it's not a change, but conserving status quo !. It's always upside down in **deceptional conspiracy world**. CIA entirely has been endeavoring on inspecting and attacking an individual person who would become as mentioned just in above.
For most amateurs, changing thoughts downside to upside is very difficult.
A truth is found by an individual, and recognized by the many at last.

<<Disorder into Order "Change" by a Leadership>>

WARNING:

A truth shall be recognized at last, however if it realized by seeing the reality, it might be too late. If it realized by inference (**prediction** by logic), it could be quick relief. Therefore, a logic is also a supreme knowledge.

*<http://www.777true.net/OPERATION-GLOBAL-RAMADAN.pdf>

⑧ Curious today's world opinion on the pseudo coup data in Japan:

As for Japan, now, the world opinion blame Toyota CO for the defect cars, while author could not find any relating news on above mentioned the pseudo-coup data in the international media (mainly in world wide website). In 2009/5 as for Honduras, the purge on the president Zelaya, many southern American nations and other nations accused illegality of the military coup data. Also author think so. Media special correspondents the specialists on Japan never fail to recognize the abnormal process and cause of the pseudo-coup data. Such as they could detect being of CIA interference. Certainly, a democratization of own nation should be initiated and accomplished by own endeavoring without injustice interference of other nation power. However as for the case of at this time, it is evident that CIA interfere and fact is extremely far more than it.

⑨ **Haiti the biggest earthquake is artificial weapon attack by USA.**

<http://www.777true.net/EARTH-QUAKE-WEAPON-by-USA.pdf>

<http://www.777true.net/Letter-to-UNs.pdf>

It's an outrageous disaster never seen in before. More than 20 thousand people were killed and wounded are far more than it. By anyhow, we must do relieving Haitian as possible as we can. However, now, author could not help to refer following reality. The deep correlation between {the big earthquake disasters in Japan 1995/1/17 and in Haiti 2010/1/12} and {respectively the two synchronous political state transition in Japan}.

An earthquake is caused by gigantic lands-drifting power caused by outrageous **earth core energy** in geological time scale, which is at least decades or more than those. Hence date correlation in a month or a day could be said extremely abnormal in natural process, (but could be normal in artificial manipulation = earthquake weapon as a **triggering source**). An energy of earthquake weapon itself never could fulfill that of earthquake natural, which is extremely far higher energy than any number of hydrogen-bombs.

(1)Japan(Hanshin-Awaji) 1995/1/17:

(a)Hanshin-Aakashi big air attack by US Air force in the world war 2nd was in 19/January/1945.

(b)Sun Fernando earth quake of M6.6 in Califolnia was in early morning of 17/January/1994.

(c)Hanshin-Aakashi the big earthquake of M7.2 in Japan was in early morning of 17/January/1995. To be very rarely at that time, Japan Government was not LDP, but short term one of premier Murayama Japan socialist party representative during 1994/6/30~1996/1/11.

(d)Ohum Sinrikyo poison gas terror in Kasumigaseki subway(1995/3/20):

It's a cult groupe manipulated by political police in order to induce public opinion for intensifying police power against(political collective movement).

It's a subtle self playing terror conspired by political police with CIA.

Since they had previously detected their plot in Kasumigaseki by spy in the cult<Takashi. Tachibana, the dep darkside of Ohumu, weekly magazine Bunshunn>.

It seems a preliminary experiment for conspiring 9/11 own play terror in USA.

(e)In July in 1995, author disclosed (a)(b)(c) facts and was attacked with electric shock-gun by terrorists, who has not been arrested by political police.

(2)Haiti 2010/1/12:

Once again, Japan turned govremnt from mono-cratic conservative LDP to JDP (middle-left?). At that time of government change, a few predict possibility of earthquake weapn attack on Japan by USA. But not on Japan, but on foreign nation as Haiti was attacked. Thus all of foreging nations become hostage against govemnt change from right to left. It's a outrageous political threatenning for statemen wishing reform of their political regime. This fact may be very incoveninet for the first Afro president Barack Obama. The plot on the first Afro republic nation was made by the ultra right wing the supremacism in USA.

⑩Opting Satan or Angel entirely depends on You.

(1)Global solidarity against the evil empire action.

It's you who determine to make global solidarity or global division against the evil empire action utilizing a supreme weapon. If you would become silence on the earthquake weapon, this report would become an assistance for their threatenning propaganda. Similary, if you were silence on Climate Change Crisis, nothing effective relieving actions could not beggin.

appendix-1:As for earthquake prediction,you should counsel with "cat-fish".

<http://www.777true.net/Earthquake-forecasting1.pdf>

(2)Scalar wave as being both Angel and Satan.

Telling on techical aspect,the principle of earthquake weapon can also be peaceful electric power generator.Both the former and the latter are due to so called **scalar electrical wave(B wave)**.Note that portable phone utilize vector electro-magnetic wave(**A wave**).As you know,A wave needs finite energy in its radiation.However,maybe your frightenning,**B wave does need nothing energy !!!**.

It is created from nothing as $0=+E(\text{available energy})-E(\text{negative gravity one})$.

Above mentioned principle is just the same as that of creation universe from nothing. (This is a standard physics officially recognized in world wide physics society).Therefore,Nicola Tesla the inventor and the greatest electrician in 20th century was purged from ordinal science sean of the world.Similary,Ryoyu Utiyam the discoverer of the unified interaction theoy is also neglected in the world sean.Utiyama theory can be one verifying scalar wave creation from nothing.

[5]:How to overcome the difficulty !!!:

①Rightly, or wrongly, all is for benefits the capitalism(the censor principle).

Consequently,our conclusion is reconsidering co-operative economy regime instead former one(monopolic capitalism the supremacsim).Very incoveniently,it is very unpopular for those people who were grown up in gorgeous capitalism (mass consuming=mass product=mass profit=mass debt).Yea,it's a narcotic (satanic temptation),which must be cured by enduring very sever pain.Or you never be relifed.More drastic another telling,we do work extraordinally too much to destroy even own life enviroment.It's a money illusion of Mamon world.

Live life for enjoyment-itself first !,but without CO2.

work only when we feel hungry(**necessary**).

In above sense,now our world has been upside down.It's entirely due to the capitalism(mass consuming = mass product = **mass profit** = mass debt).The last equation is due to the zero sum theorem in finance,which state that <total sum of current assets=total sum of debts in closed finance system>. Any economy text never refer the zerosum theorem at all.Ridiculous at all !!!.

②The most difficulty of now world is lack of recognition on necessary truths.

On this serious problem, established world wide monopolic media and education institurion must be emergently accused in order to recover necessary truths.

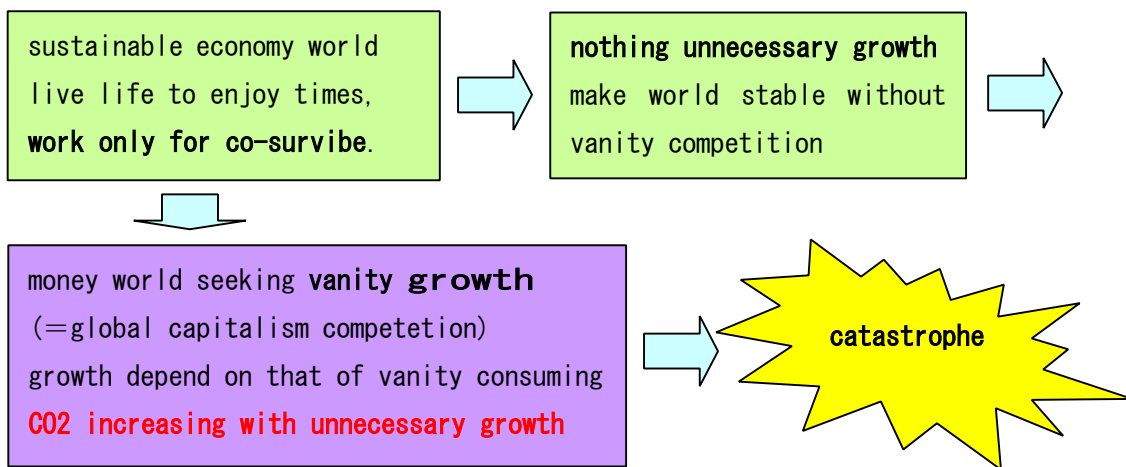

- (1)Commercial media are fouded by big capitals, so they become tail waggings for their sponcers.They are usually censored. Also NHK and BBC,.. are the same. Bureaucratic such as they also agents of actual dominator of now world.

<http://www.truthout.org/topstories/122709vh4>

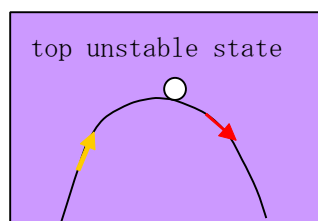

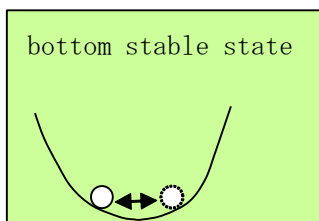

- (2)People could live freely by saving foods & house with minimum energy.

- (3)**Hegemony struggling on money by perpetual investing on growing consuming.**

Absurdity of now world is superficial vanity competition stimulated by income one. A minimum fundamental economy is saving food & house with energy to live. Being far more than those are due to excuse to grow market for growing capital. American dream model stiring up mass greedy causes unnecessary products, which had made outrageous extravagant consuming natural resources in the world. Consequently, this world momentum would become not to stop unless certain kind collapse of own current state.

- (4)A minimum state could be stable,while orienting supremum one unstable:

Imagine a ball dynamics in \sqcup and \sqcap surface. Thus you could see upside down world of now.

- ③Then you could opt a kind of collapse.

Which is better mankind surviving, or perishing !.

Which is better stopping the current regime, or prolonging one ?.

Appendix2: Prediction on Japan and the world destiny by the "Hizuki-shinji":

(1) According to "日月神示" (day.month. God.revelation) (1944~1960), the outline of the great re-creation process (of Japan and the world) may be as follows from its global view point. It was revealed by Tenmei-Okamoto by unconscious automatic writing.

<http://www.h2.dion.ne.jp/~apo.2012/bookstand-nakaya.html>

- ① Japan is defeated in world war the 2nd.
- ② Japan recover its force and make prosperity again.
- ③ "Evil plot" make on Japanese deeply spoiled to their bones.
- ④ Once again Japan is attacked to collapse down by foreign nations, then world nations become united in order to defeat Japan.
- ⑤ A global scale of change attack on all global mankind causing its chaotic state.
- ⑥ There could be substantial change (sublimation) in all of the material.
- ⑦ The emerging of kingdom of yesteryears bliss (world Maitreya who relieve all the people in the end of the world).

(2) God-ghost device (mechanism) in "Hizuki-shinji" (日月神示) by Wikipedia:

All people are equal in God.

<http://ja.wikipedia.org/wiki/%E6%97%A5%E6%9C%88%E7%A5%9E%E7%A4%BA>

Possible happening as great final disasters and wars in God-prediction (神示) is called "Great turning point" or "Great washing of three thousand world". It told that those would happen equally both in the world and the other world. In other world by God-ghost, it would be a reconstruction of all the three thousand world. In the past, many so called **prophets** emerged both in east and west and predicted that present world would encounter **the end by great catastrophe** and would emerge **new ideal world** being entirely different that of the past. God-ghost himself told that it is all caused from "God-ghost device" 「国常立尊」
= **In any nation at any time, persons emerge and try to relief people by prophecy.**
It means that in any nation, there emerge such prophets warnig the great washing of the world. The similarities in each nations are entirely due to a God-ghost device. Henceforth all people of all nation must friendly co-live with connecting their hands.
