

To be or not to be Planet Terminator,the supreme decision on Climate.

Trump became next president,who is friendly with Putin,so the **Hell of Syria** must be soon settled without **WWIII** ,however both are **climate denyers** at now.**In peace established world,** the **deadly climate** could not help to be ,but the highest priority task !!! .Above all,**East Siberian Arctic Shelf** is facing imminent **Methane Catastrophe Risk** !!! .Not only both nations,but also other nations must take urgent actions with together !!!!!. 2016/11/13

[1] : The Highest Priority Task of the World at Now !=Climate !!!.

(1)**The hidden historical background(First of all,war must precedently be stopped !)**

Since **2001/9/11**,the world, especially in Middle East Muslim Nations has been being lipread with **false terrors and regional wars** by ruthless conspiracy due to **US military industry media complex-CIA(MIC)** employing so called ISIS.ISIS was made by USA to conspire false flag wars due to the strategy of **perpetual wars** toward global hegemony win.

Their superficial reason is getting profit in the war(huge military expenditure by US citizen tax).Another hidden **supreme reason** is **hiding worsened climate** in order not to rise it top stage of international debate. This is entirely due to the US emperor Rockefeller(**the oil merchant EXXON-MOBIL**)who has been endeavoring not to rise climate debate.Their influence is global in research & educational org,mass media,and business society.

Then Rise of Trump may be very singular in modern USA history,because he is outsider of the stubborn USA wartime regime ruled by Rockefeller with **MIC**.He is not a person in military industry complex(the war economy having been biting national big budget),but independent rich which enable presidency candidate.His idea may be as follows.It's escaping from war economy,but retro-recovering industry to save mass declined middle class in USA.It also deadly trial to **evade WWIII** between Russia and USA,which is called **operation End Game** to exterminate mass global people in order to accomplish noble elite's final surviving.Thereby only Putin Russia who know above serious affairs welcomed Trump.Both of their endeavoring has great possibility of **Establishing Global Peace Era** since **2001/9/11**.

<http://heatst.com/politics/kremlin-clinton-victory-would-have-led-to-world-war-3-between-russia-and-the-us/>

Note it is unprecedented challenging the USA regime(the NAZIS reincarnated nation after the war).Thereby desperate emigrant people In USA never kill him.He would try to save also them before long. A business man could make a solution to overcome the desperate.

However even having accomplished global military peace,we have been facing another supreme extinction risk by **Climate Catastrophe**,of which settlement has **little time** !!

(2) **Collective Cowardice=Psychological Pathology on Climate<the current situation>**.

<http://thenelsondaily.com/news/column-collective-cowardice-climate-change-42984#.WCVRG9KLR0w>

For almost people facing livelihood difficulty at now, certainly climate can not become urgent problem (but for many at now, it had already become urgent problem (strong drought, big floods, sea level rise, !!). The most troublesome matter is that climate could not be cured by instant fixing operation, but by far precedented and global fixing one. It is **precedented being hospital** where no free by any more. Urging free means nothing, but death in hell.

Especially **sick business society** terrazzo hate this fact. But their result is too evident enough. After all they has merely been ignoring for the time being. Then so called **climate den yer** would be terribly accused at when climate would have revealed its true appearance of the Grim Reaper. Can they not guess it ???.

(3) **Climate scientists and engineer fear for Trump's abolishing climate policy.**

<https://thinkprogress.org/trump-zero-out-federal-clean-energy-56cca794790#.8kk11gu10>

(4) **Don't accuse politician, but accuse ownself who can't declare climate wartime !!.**

Climate change is far more than any wars, because it is planetary mass extinction event.

Thereby **declaring climate wartime** is not exaggeration, but unique and only solution,

Note it is not politician, but doctor, only who can declare to patient to be in hospital bed !!.

If climate scientist in global could not declare **climate wartime**, it's them who are cowardice.

<http://www.777true.net/It-is-Climate-War-Declaration-which-enable-prompt-regime-transition-without-confusions.pdf>

(4) No necessity the climate scientists who can not declare climate war.

Now climate had become seriously worsened to be noticeable to every people, so denying climate is fatal as responsible politician. Also silent climate scientists are told irresponsible.

Climate science society seems that **they put the deadly climate responsibility to rather ignorant politician**. Certainly a politician is short sighted by imminent busy works. If so, why they will not confess those serious fact to people directly to turn the deadly situation.

(5) **Climate denying politicians are planet terminators.**

Climate has been becoming worsened, **which ,at now ,non can deny**,so climate denyer must be terminated.If climate cure was decisively impossible,also author must be terminated.

[2] : **Once having declared climate wartime regime(→planed economy), mass employment with mass leisure become possible !! .**

Above too big task is decisive to assure people's life, while authors ability is evidently limited. Thereby he entirely wish many researchers trial !!!.

***study on actual historical wartime regime economy may be available !**

Because, fundamentally all nation people must become soldiers who are assured life by nation. At first, General Head Quater on climate war must be established in government. **Fundamental idea is saving foods-water, energy and housing and various care service,**

(1) Another urgent special project is **Arctic Cooling Implementation** by global endeavoring.

<http://www.777true.net/Arctic-Cooling-Engineering-the-Summary.pdf>

Above all, **East Siberian Arctic Shelf** is facing imminent **Methane Catastroph Risk !!!**.

Not only USA & Russia, but also other nations must take urgent actions with together !!!!!.

This is **Russian&Vegas Roulette** by ultra large scale project which need global investment.

(2) Even 80% CO₂ reduction, about 40~60 years is necessary to recover stable climate.

***Atmospheric Carbon Absorbing Plant** must urgently be studied and implement the plants!

<http://www.777true.net/Rapid-CO2-Absorption-with-Mineralisation-of-CO2-by-OLIVINE.pdf>

Depending on the plant scale, it could accomplish shorter time recovering !!.

This is also large scale project which needs global investment.

As for renewable energy technology, author is optimistic. Once climate wartime regime established, any nation would rapidly turn to developing and implementing the technology !.

In abroad, renewable energy is remarkably growing.

<http://www.asyura2.com/16/genpatu46/msg/457.html>

<http://planetsave.com/2016/10/25/renewables-now-half-new-electrical-capacity-growing/>

<http://www.cestarcollege.com/blog/renewable-energy/growing-job-opportunities-in-renewable-energy/>

(3)Then ordinal weapon is **renewable energy machines** and the attached apparatus.

Transportation System must be revolutionalized toward less CO2 emission !

Wind turbine with Hydrogen gas generation may be best tool !!

Appendix-3:Hydro Generation & Dehydro Generation

http://www.777true.net/Do-or-Die_Mending-on-Deadly-Climate_the-Problem-Solution-Reaction.pdf

(4)Increasing and saving foods & water is also seriously important in wild climate era.

In climate wartime,**agriculture** must face its **vulnerability** in **long time wild climate**,

So risk evading is only increasing foods production with less CO2 emission.

(5)**Land and Marine Geo-Engineering.**

Desert forestation project must be implemented.

Algal plantation in coastal lines must be implemented.

Necessity is mother of invention,Climate wartime regime is to enforce people **bitter life**,

However it is bitter life itself that could accelerate rapid,good and many inventions.

Do not much worry before doing,but having done would cause good results !!.

*Take the first step in faith. You don't have to see the whole staircase,

Author's most question is why they could not have riot against Hillary when Mr Sanders the top runner was defeated by fraud voting operation in the Democrats ??.

'Health problems to force Russian president to stand down NEXT YEAR' Nov 11, 2016

<http://www.express.co.uk/news/world/731307/Vladimir-Putin-resign-Russian-president-quit>
VLADIMIR Putin could be forced to quit the Kremlin next year because of his worsening health, an insider has claimed.

This may mean that Putin judged his mission to prevent WWIII has accomplished by Trump's winning,who is friendly with Putin Russia.Also it is governmental power transition to next younger Russian generation,to whom he give free will to decide their critical future. Also he is not simply noticeable Russian hero.it is Russian power who has been intercepting the ruthless ISIS invasion to Middle East and other disputed regions.Without him the partner for USA and Russia reconciliation,also the rise of Trump might have been impossible.

Solving the Trump Paradox:

In conscious or non-conscious, the most fear for American may be power threatening of the military industry media complex with CIA(MIC). In fact, **president Kennedy**(1963) was assassinated due to his trial to reform the evil power, which was terribly accused in the famous presidency farewell addressing by former President **Eisenhower**(1961). For almost 50years long after that tragedy, none American would actually try to resist the power.

Then 2016, the D.Trump emerged with **indicating the truth of 9/11**, which had caused strong shock for the MIC regime(Jeff Bush was their agent presidency candidate). It is the utmost taboo in the conservative society **American Establishment**. Of course it is too dangerous also for Trump. Thereby, he could not help, but play **rather absurd actor**. If he had very honestly and perpetually been telling those fact, he never fail to have been assassinate. However not few wise American had noticed his hidden true intention(against the MIC regime). Thanks to his outrageous absurd speeches, those supporters are told not to declare his support. It may be which that could have **deceived poll survey** by established media the mass liar. Simultaneously very sincere and able Mr B.Sanders accused evil ruling of the wealthy American Establishment. However he was substantially politically assassinate by **the fraud election process** in the Democrats Party.

Thus authors solution on Trump paradox is intellectual surviving by **pretending absurd**. A businessman(engineer) is always forced to **derive success**, for accomplishing the aim, they will try and employ any possible solutions to derive good results.

First of all, D.Trump and V.Putin together must try to make rapid cease fire in **Syria** and Middle East to **evade WWIII** between Russia and USA.

☞ : Now it is told that total voting of Clinton is over that of Trump, which may be fraud to accuse his winning. So far authors search in previous web poll survey, Trump's winning was evident. This is very dangerous accusation toward agitating riots in USA.

Appendix_2 :

Author's Position(unless mistakes,task is not to tell his opinion,but truthes).

His mission must be truth messenger both by science and the holy scriptures(religion).

However to say so,he is incomplete with frequent mistakes,so also you must be **truth teller !!**.

(1)**LOGIC** the supreme science for comprehensibility.

Those are simple,but strongest for deriving truthes.**Only TRUE is REALIZABLE !!!**

http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf

<http://www.777true.net/Proof-on-God.pdf>

<http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf>

*A contradiction enable **almighty**(logic),and vaccum world is contradictional(quantum physics).

*A true is provable ...**Goedel's Completeness Theorem.**

Something is probabilistic due to **information loss..Goedel's Incompleteness Theorem.

You can not tell the maximum number= M in natural number set $N=\{0,1,2,3,\dots,M-1,M,M+1,\dots\}$. If you tell M ,then $M+1$ is larger !!!.

$Z=\{1/1,1/2,1/3,\dots,1/M,1/(M+1),\dots\}$. You can tell minimum number in Z , which is zero= $1/\max$ number in N , while you can not tell the max number. Thereby real number zero is definite as nothing,while it is indefinite due to that of the max number.

(2)**Dynamics** due to $m \alpha = F$ (mass \times acceleration= $=$ force).

Results =Output by Causes.....It is a science duty to predict results by causes.

*A dynamics may be simplest science,because it is ruled by only one the equation.This simplest feature is inherited to elementary particle physics where so called a **Lagrangean** rules.That is,once a Lagrangean had determined,all the information for elementary particles can be derived from it.

(3)**Religion's Teach : People must co-live with justice,truth,and mercy.**

So far authors survey,any religion tell almost the same matter in the essence.

Almost the matters for mankind is written in the holyscripture. Note **revelations** were not told by secular person,but by the other world one.

*John's revelation, Al Qur'an by Muhammad, Panya sutra,

(4)**Engineering & Business-Politics.**

It is a solution for co-living to derive maximum benefits with less cost by(1)(2)(3).

ps:It's established mass media(pro Clinton)who has been betraying mass people !.

Author could not help,but refer to USA who has been too influential to the world.

MIC=military industry media complex with CIA in USA inherited from NAZIS may be utmost disease, which has been ignoring massive others suffer.Now their influence has become as hostile ideology -- global in scope, atheistic in character, ruthless in purpose, and insidious in method(Ike).However at now, there emerged a possibility of rising hero(if not becoming Kennedy)who has been challenging **the regime**. It could not help,but tell outstanding bravely. However D.Trump paid much cost in persuading American voter by the paradoxical ways. So now is the time to solve the paradox in order to recover the stability not only in USA,but also the world.

Let us be cool to consider all what he said during election campaign.Those are substantially almost jokes and trivial to drag accusing from the established mass media.It is they who substantially has been lying and **betraying massive people**. **The actual fact is upside down !!!**.Thereby to turn the situation,also we must turn our established recognition.

In this sense,let us be careful to reconsider what Trump really intend and do.

Then note a policy never be accomplished by any only president,but by his **many subordinates**.It is they that could substantially decide and implement policy.

The most cautious point of Trump presidency is at here !!!.

ps2:It is bankruptcy that could save the world toward total change ?!!.

During transforming process from caterpillar to butterfly in the **cocoon**,body of caterpillar is told to be **liquidation** into parts,and then reforming is to begin.It is also told that a genesis process is repeat evolution one,however above mentioned process seems different.

Then, is what(where) commander? to totalize controlling the marvelous change ????.Being caterpillar is very risky as bird's prey,while becoming butterfly may be **discontinuous transition** to the risk evading.It may be possible that in mind of caterpillar,there were strong wish(image) to fly in the air,but not to crawl on the ground.**A strong imagination become realization ??**.It is also told that early infant strong education could make genius,or genius is childish(Mozart,Feymann(American physicist)).if so,an adult has no hope to evolve ?, but only to die ???.Being adult is a kind of completion and conserving.It is also told once people had become rich,they had become terribly **conservative** without (r)evolution.

They had become slave of pleasure in unrighteousness(ignoring climate and wars).It is which that has been causing coming (war or climate)catastrophe at now world !!.

By anyhow,even tiny caterpillar can do marvelous discontinuous transition,then if we could not change,we mankind may be less than that caterpillar ?!!.
