

## Troublesome Illusion in Elementary Particle Physics.

2013/10/8,22

So called Higgs Model(2013 Nobel Prize)is entirely illusion.Honest physics can not stop to strongly accuse the event.In the behind. there are outrageous simple,but strong facts hided.

What is **mass** ?,it is originally defined and measured by **universal gravity force**,

The force is proportional to product of masses $\{m_1 \times m_2\}$ between mutual interaction.

And is also reverse proportional to square of length  $^2$ between those masses =r.

$f = Gm_1m_2/r^2$ . Newton Gravity **Attraction** Force.

$G \equiv$  Gravity Constant =  $6.670 \times 10^{-11} \text{Nm}^2\text{Kg}^{-2}$ . <MKSA unit>

Another definition is **Newton Dynamics Equation**.

force = mass(m) × acceleration of mass(  $\alpha$  )  $\sim f = m \alpha$ .

Thus force generated by “acceleration and gravity” can not be distinguished in a closed elevator.This is famous the “**Equivalent Principle**” in accelerated coordinate (by **A.Einstein in 1907**).

Therefore it is the **Equivalent Principle with {General Gauge Theory(1956) and the Quantization one(1967)}** that had established complete unified theory of elementary particle ,but insidiously had been hidden to global public.This theory could explain **creation of universe and the evolution history of matter**,as entirely agrees with the realities.

### -Universe(Matter)Evolution Process-

$SO(11;1) \supset SO(11) \supset SO(10) \supset SU(5) \supset \underline{SU(3) \times SU(2) \times U(1)}$ .

Big Bang evolution in temperature down, **strong, weak, & electromagnetic force at now.**

Especially note that Gravity **Attraction** Force is **negative energy**,but not positive one. This fact could be evident.You should imagine two particle interacting gravity force at first.To vanish gravity force, you must separate those at infinity length.Then you put positive energy to separate those against attraction force.When you had done,then those masses have nothing force,which means **no energy=0**.You could **repay debt=negative money at first**.

Then especially note that this universe was born from **nothing energy**.Because not nothing means not creation of universe due to the definition.Now it becomes evident the total energy of this universe now is still nothing.This is **conservation law of total energy count**.

$$0 = \text{positive energy of masses} + ..(E=mc^2) - \text{negative gravity energy(attraction force)}.$$

♪:  $0 = \text{Total Bonds} - \text{Total Debts}$  in finance.

♪: Why the “nothing” could create this universe ?, is it contradictional ??????

In the beginning,**observable physical law was also nothing !!!**,

That is nothing at all,but the art of God **the almighty being !!!**.

Once non-nothing had realized,observable physical law began to rule(quantum theory).

About **skeptical Higgs Model**.

In this way,the mechanism of mass must be due to **gravity force**(the origin of this universe).

While so called **Higgs Model** could not refer to **gravity theory at all**. It is entirely nonsense.

So called energy potential by Higgs model was made to generate **negative energy state**.

By so called phase transition from the origin of this universe(nothing) to Big Bang..those could simulate negative energy state.

**Higgs Model Energy(Potential)**

**Energy(Potential) by Equivalent Principle**

The model is entirely **mathematical fiction to simulate reality by a degree**, But without genuine physical principle such as valid **equivalent one**,it never can determine **real physical mechanism** and **parameters**,so they has been urging to supply **big money** to build big experimental toys. Sweden with Nobel Prize has been troublesome to causing confusions not only in case of Innocent Julian Assange,but also in basic science policy in the world(but the exception might be USA and Russia ?).

**Petition to USA government(energy ministry)with American Physical society.**

In Autumn 1993,so called **SSC**(Super conducting Super Collider for searching Higgs

particle)construction was aborted in the half way to completion.The total cost is told

**12billion \$**,so the abortion might save 6billion \$?.At that time,they announced the abortion

was due to financial difficulty.But Clinton government succeeded to change red from black in

annual budget by rising internet business.In the later,author noticed that a thesis written by

him in **spring 1993** can cause **SSC of no use**. The thesis at that time was incomplete

initiation ,but has possibility to accomplish total conclusion.Because the thesis can become

one to derive **mass formula of elementary particle s** at last. American scientists seems to

have accomplished it precedently before author reached there(1995). In 1994,he petitioned
