They could not admit own fatal failure, but hide. It is which that turn to final catastrophe. 2016/7/23

They are fanning the flames of World War III by repeating without question Washington's propagandistic lies. These lies are reckless. They endanger all life on planet Earth.

It is above mentioned matter that would cause World War III !!!.

That is, the USA-UK-Fr **Elite (the nobility and the followers)** has been ruling this world by **lie and deception** (= the upside down world). Once those would have disclosed to anyone in the world (turning from false to true = revolution), they would consider it is the time that end them (**World War III = anti-revolution deed**).

[2]:Truths hidid by the Elite.

It is their **abnormal obsession to the power**(monopolize global wealth and highest status). Which is too evident to be against with **DEMOCRACY**. This is the essential reason why they need lie and deception. Note genuine religion had recognized this **fatal political fact** since ancient times. So they has been hating the religion(persecution against Jew by NAZIS). **NAZIS** was funded by American capitalists before the war. Now they reincarnated in USA.

6:12 For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places. **6:13** Wherefore take unto you the whole armour of God, that ye may be able to withstand in the evil day, and having done all, to stand. **6:14** Stand therefore, having your loins girt about with truth, and having on the breastplate of righteousness; **6:15** And your feet shod with the preparation of the gospel of peace; **6:16** Above all, taking the shield of faith, wherewith ye shall be able to quench all the fiery darts of the wicked.

* **Hitler's marvelous Predictions**<Following is authors translation from Japanese>

Emerging new slave class of non-adult ensemble.

http://inri.client.jp/hexagon/floorB1F_hss/b1fha400.html#04

What feature will future society reveal !, Comrade gentlemen. Let's tell you. At first **elite aristocracy** would appear by survival struggles. Then also appear "eternal non adult group", that is, new middle class, ignorant public, and new slaves who serve. And top on all of them, new Aristocracy would have been established . Some special leading person would be. Thus, by hegemony struggling, new regime would be established in inner and outer side of nation. Also east region become giant experimental one,and then new European social order would be implemented (Words told to Rauschning by Hitler) .

* **The Ghost of NAZIS.**

Eternal non-Adult Ensemble<Hitler's prediction

:Chap5:East region become giant experimental one>.

http://inri.client.jp/hexagon/floorB1F_hss/b1fha400.html#05

All right, now I will explain you Hans, what I told you on **Eternal non-Adult Ensemble** is those who could not become adult till they die.. Such case never be in normal and severe society. Thereby there would be abnormal society where children are grown up by extremely easy way, but not severe one. In such society, children are grown up by treating like a pet, but could not grow to be real adult even by adult age.

Poor son would be disciplined.It is they who could bring wisdom to the world !!

<Jew merchant maxim by authors translation from Japanese>

<http://www.aoiro-odawara.com/news-web/rensai/hiden.htm>

Such power never be generated in those children who are on easy rail way toward stable future.To accomplish great task can not be in ordinal easy effort. Such power comes only from strong desire with rebel spirit toward up by tough mind disciplined since infant age.

[3]:How to Intercept Global Extinction by People.

After all,author had noticed that all the fact for nature is told by **dynamic equations** and all the fact for humankind(**especially political fact**)had been already told by **the holy scriptures**.

Thereby we must do follow what those told.

Matthew 5:37

***All you need to say is simply 'Yes' or 'No';
anything beyond this comes from the evil one.***

APPENDIX-1:

Imminent Saving Income vs Emergent Implementation of Climate Wartime Regime.

This may be the most difficulty for anyone on the planet.Now they had recognized non denyable fact of **worsened climate** due to own dairy experiences and related news by media.

Then **Effective Climate Fix** needs emergent 80%CO2cut and Arctic Cooling Engineering.

The problem is far big to attack !!,while looking around other people,they seem entirely **apathy**.

Above all,also politics and economics nation leaders claim it impossible for saving economy.

As for people in jobless,it is not climate,but imminent getting job.

Especially as for people in regional dispute,it is not climate,but imminent cease-fire.

Although there could be unique and only method that can settle all the troubles at once.

It is Global Declaration of Climate Wartime in order to make rapid transition to wartime regime.

In wartime regime,people fundamentally must become soldier who is assured life by nation.

Note the world at now has sufficient money to vanish **all the debts** at once(zero sum theorem).

<http://www.777true.net/It-is-Climate-War-Declaration-which-enable-prompt-regime-transition-without-confusions.pdf>

Scenario at now:

Fundamentally to **hide deadly climate(economy)worsened**,they would take strategy to globally expand regional disputes by **false flag wars** and **false flag terrors**.At now you really could see such perpetual terrors in recent years since **the 9/11 in N.Y 2001**.The most recent events were Nice attack by lory and coup in Turkey.The final stage would be global extinction by **WWIII**.

Scenario the necessary:

Note final stage of climate is global extinction by **Arctic Methane Catastrophe** due to massive methane eruption toward **fire ball earth**.Coming climate without any fix is not gradual global warming,but sudden large temperature rise due to Arctic Methane eruption(in decades).**This is far cruel than any wars**.Thereby global climate war declaration is not exaggeration,but imminent decisive reality.Note so long as we could intercept methane catastrophe by Arctic Cooling,there could not be **it's too late**.However even accomplishing urgent 80%CO₂cut,global temperature is to rise about 0.2~0.3°C by 20~30years long(down period may be about 30 years long),the term is more worsend climate(stronger hurricanes,floods,draught).This is nothing,but **climate wartime reality**. **Note certainly our life in climate wartimes can not help to be tough, however it is bitter life that accelerate many good inventions to avert our difficulty in life.** Never be pesimistic,but **strong optimists**.The former is a cause of failure,while latter is one for sucecess. Imagine coming global glorious victory era !!!

APPENDIX-2:Making Video of Predicting Coming Climate Hell World.

Mark Lynas(UK) is only one who wrote **livelihood actuality in coming climate hell world**.

What will climate change do to our planet?<Reality in coming climate hell>

<http://www.planetextinction.com/documents/What%20will%20climate%20change%20do%20to%20our%20planet.pdf>

However he may have known for its incompleteness, so he deleted his original pages in recent.

*By 2°C rise would cause Arctic Methane Catastrophe,which is final stage. Nothing,3,4,5°C.

However his fundamental motive to warn global people by **showing decisive realities in the hell** must be applausible and **indispensable at just now**,when people are confusing to make decision.Nothing effective decision on climate is due to disability in recognition on climate cruelty.It is necessary to make too heavy decision that one can not help,but face inevitable risks. It is nothing,but deadly process toward global mass extinction,**as for which none ever write(but he)**.His work was done only by him without help of experts.So the second version should be with them.

Scenario at now<toward WWIII>:Also political analysis is necessary.

Scenario the necessary:**This is the supreme task also for you.**

Scenario-0<2016~2043 : no substantial climate fixing and no WWIII>

In the beginning is **reliable climate prediction** with emission scenario.

IPCC neglects Arctic Methane Catastrophe,so we must add the prediction.

*IPCC at now is substantially silent suicide organization by our tax.

This becomes decisive task to build methane modeling for global temperature prediction.

*<http://www.777true.net/Rapid-Temperature-Rise-in-Arctic-a-simple-verification.pdf>

Precise regional climate prediction is necessary, but rather uncertain.

*Synthesizing regional climate by assumption of global temperature may be new problem.

Lynas employed the observed data in **paleo-climatology**.

Regional **foods production** prediction is necessary.

Regional livelihood and **peoples behavior** prediction by social-political psychology ?!

Note **the conclusion(global extinction by Arctic Methane)is too evident**, while our emergent task is warning toward political actions, so we should not obsess too science accuracy at this time.

<https://www.youtube.com/watch?v=Bu6SE5TYrCM>

DOOMSDAY 2020 - Arctic Methane Melting NOW

<https://www.youtube.com/watch?v=VMZbvrs51cg>

So far by authors survey, methane problem video by experts are rather difficult to understand by general people. Mechanism toward catastrophe should be explained from more elementary foundations and from citations in paleo climate facts such as Permian mass extinction..
