

Whole View on This Paralyzed World<Why We Are to Be Extincted !>

2024/3/25

I: The Essence of Modern History.

It has been class struggle between the religious Jews and the anti-religious Germanic hereditary ruling class. The current is the former would be defeated by an overwhelming majority supporting the latter's ruling over the mass economy. However, salvation lies in the truth, and result of *the upside-down world* going against the truth shall inevitable destruction.

II: Creation of this Universe, God <almighty> and Satan<anti-god>. <Logic = the truth recognition>.

(1)The true intention of creation from nothing <divine intention>.

☞; Beginning with being is to ask origin of the being. Nothing is forever nothing is the current law adopted, not at that time of creation! .In real nothing world, there must be also "nothing laws" = anything is possible <ALMIGHTY! >,Note also nothing time,because nothing clock!.

(2)Origin-Vacuum \Rightarrow {Normal Vacuum + Matter. \Leftrightarrow "0=+a-a"} \pm separation in the phase transition <BigBang universe creation>.

(a)In debating on original existence or nothing, being of **observer** is prerequisite logic..

(b) Observing measurement tools for description on non-nothing is essential for observers
 \Rightarrow **Gauge** (for "time and space, hyperspace")

(c) Gauge has unit of measurement(number), however as a common sense, the definition on unit is arbitrary! .But truth is unique and only one! Otherwise, recognition can not become logic(unique true recognition) \Rightarrow **Gauge Invariant Theory**.

☞ ; only one truth! \Leftrightarrow **A** and its negation **notA** cannot hold at the same time! ! \Leftrightarrow **No contradictions!**☞; The basics of science is at here: existence = unique and only observational realization in a **material world(non nothing) = consistency**.

(e)There is only one truth! Otherwise, recognition can not logic \Rightarrow Consistency and establishing **Mathematics**.A mathematics in a word, it is consistent truth description system with number theory as its starting point<**Completeness Theorem** = truth provable>

(f)Observer must provide also the most precise description without ambiguity<unique truth>
 \Rightarrow establishing **Quantum Logic**. \Rightarrow Frame of Quantum Mechanics description tools such orthogonal function systems with operators becomes available by quantum logic<(e),(f)>.

(g)**Quantum Dynamics from gauge invariant theory**<(e)(f)(c)> = {math+dynamics+matter interaction theory(\leftarrow (c))} \Rightarrow establishing quantum gravitational dynamics(QGD).

(h) $SO(11;1) \rightarrow SO(11)$ universe creation QGD process(BigBang)as gauge field dynamics by quantum gravitational dynamics. \rightarrow APPENDIX1.

☞; What amateur person needs is digging deeper into cognitive logic becomes mathematics and physics theories.Actual history of science is results accumulation of experimental observing, however it is also reproduced by the perspective of cognitive logic.

(3) **Incompleteness Theorem** \Rightarrow Lack of information is the origin of **probability**.

Deterministic Theory(^e)=Those are propositions with realization probability=1.

None Deterministic Theory=**Probability(Statistical,Stochastic)Theory**.

The maximum value in natural number set N can not be determined, and the minimum value of the reciprocal set of N = **real number "0"** is also can not be determined.

☞; In *the standard elementary particle theory* the only one consistent with experiment, a particle size is real number 0, such the super string theory is useless and harmful.

Conclusion II: Establishing this universe, God <almighty> and Satan<anti-god>:

Because universe origin has no laws<almighty>, it was able to be created from nothing. However, once it had been created, consistency(the law) was to rule.The material law world had been realized, but the vacuum world remains lawless <almighty>. This world and the other world are connected by B-wave communication, and the historical religious revelation (from almighty world) as paranormal phenomena had occurred<the miracles! >.

<http://www.777true.net/Proof-on-God.pdf>

<http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf>

☞; Because anything is possible, if there is God of justice, truth, and mercy, then the logic is reversed = there is also Satan.

III: Summary of Essence of The Current Situation.

It is merciless class struggle between democratic power vs the anti-religious Germanic hereditary ruling class. The current result is no wining for the former,because they could not establish global solidarity,but is divided by ignorant selfishness, while salvation lies in the truth, thereby ***the upside-down world*** against the truth would inevitably lead to destruction.

(1)General Discussion:

Historically, the German Nazis were founded by American capital and European aristocrats in order to exterminate their archenemy of class struggle, the Jews. After World War I, the many monarchy collapsed and became republic, and the feared hereditary Germanic ruling class adopted anti-religious plot against the peace and democratization power with the Jews.Nazis ostensibly lost the war, but they secretly imported NAZIS human resources and technology to US and at there ,CIA-US military-industrial complex the anti-religious, self-conceit ,and worshiped violent domination, was established. After the war, the United States and the world became large-scale expansion of oil civilization. Achieved economic growth, people shifted from their hearts to matter and money, and the big success turned into a world of vanity and arrogance.Behind the scenes, the world invisibly,but actually lost its sovereignty due to the well designed conspiracy scheme of the Nazi reincarnated USA, and the world was completed under cover of invisible US ruling. The important thing here is also Russia and China are no exception, and contrary to their outward appearance of the conflict, they are acting as hidden agents and enemies of USA! !.It is strong driving force behind the promotion of the U.S. military industrial complex business. Russia and China have become strong police state to protect this secret agent system. In fact, the essence is the same in Western nations, including the US, although there are differences in the appearance.Japan has been being ruled by *US-Japan cometee system* with CIA agent(Japanese Korean and JCP member in especially public organization).

(2) The Now World's Demonic Point = Coming Fireball Earth within about 20 years.

= continuous increasing in oil and progressing climate collapse.

(a) Climatic Environmental Hell <destruction of living infrastructure and emergence of famine world, followed by a fiery hell>.

One of fatal failures of the US emperor Rockefeller is the oil consuming climate crisis. After all, he turned to a conspiracy to cover up his failures.One thing that Germanic Norse mythology and the Bible have in common is that humanity will end in a fiery hell, Rising global temperatures would gradually destroy the infrastructure of life through floods, droughts, and violent typhoons, but the rise in Arctic ocean temperatures would be ultimate. Modern Arctic science predicts that sudden large-scale melting of methane would be triggered, causing fatal damage. Brazil's Jucelino, the most powerful prophet in the modern world, and Hitler's prophecies are also common during this period.

(b) Entirely sticking to past big successes, not admitting one's own fatal failures, and clinging to the *business as usual* would lead to ruin! !→this is fatally wrong,so it must be turned.

(c)Business as Not as Usual=Global Climate Wartime Regime Establishing.

Nothing war in the past resulted in global extinction. But only climate war is entirely not !!!.

①Arctic Methane Catastrophe causing Global Extinction in fire ball earth (~2040?).

(A):Emergent Arctic Cooling Engineering to STOP Methane Catastrophe.

Arctic ocean sea floor warming would cause massive methane eruption toward rapid warming and following global methane fire storm causing fireball earth hell.

Time is running out for effective climate fixing! ? After 2020, the world had shifted from usual welfare state to the reversal policy.State can not save all the people in coming climate hell.

(b)The outbreak of the war in Ukraine (February 24, 2022), which caused millions of unnecessary nuisances, and the start of the villainization of Jewish leaders, It was Ukraine, under the operation of the Nazis US, who prepared for the war in advance. It led to the beginning of the world's economic confusion with high price tribulation.

(c)Israel's invasion of Gaza and the falling down of the Palestinians into hell, loosing off the role of the Jewish leaders due to becoming villains;Israel now becomes the most anti-humanitarian, attacking hospitals and food distribution! ! !

.....

(4) Destroying the Democratization Route of The World! ! !

The status of Jewish leaders plummets, and the world is divided as a result of the damage. Citizens are turned into sheep and rendered politically incompetent.

(a) The rulers the stubborn traditional ideology.

Traditional ideology of profit-monopolizing luxury ruler aristocrat: **fraud, thief, violence**.

Their status was taken by war violence, and became hereditary conservatives, and ordinary citizens the exploited are suppressed by fraudulent violence and military police force.

Thereby, they are essentially anti-God <justice, truth, and mercy for living together>

Their supreme world society is called **Bilderberg Group** <Rockfeller, UK imperial, ...>.

Poor people wish revolution, while not poor does not <the difficulty of **repentance**>.

The unprecedented economic prosperity after the war was to turn also mass people nobility. Once people had become a certain degree of rich unconscious nobility, also they would become fear for their high status decline in their living by the established regime (with invisible? decadence toward inevitable collapse).

(b) Religious democrat ideology of living together with justice, truth, and brotherhood.

<Modernization occurred after the French Revolution of 1789>:

Logical reversal of (a) above.

*note, all the people democracy was initiated by the religion, but not by Greece, Rome.

(c) The anti-Techniques Making People Dividend.

Appendix 0: No law: Contradiction = anything goes ~ Non-physical world = vacuum

☞; For beginners, learn at here..

http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf

(1) definition of **Contradiction**: A and its negation $notA$ hold true at the same time !!

In this case, it is possible to prove that any proposition is true as a logical theorem.

= **Theory collapse = Nothing law = Anything goes! ! .**

***True** definition

= observable realization, usually limited to the physical world.

(2) **Vacuum is a Contradictory World<Anything goes! !>**:

(a) Material world events are non-contradictory

⇔ Conjunction proposition

⇔ If the contradiction is realized, the non-physical world = vacuum

(b) Vacuum polarization reaction $\langle 0 = +a - a \rangle$ is a logical contradiction:

It is reaction, from nothing, an elementary particle with its antimatter particle are simultaneously created and then simultaneously annihilated. In common sense logic, nothing becomes nothing forever, so this is a phenomenon that breaks causality logic.

In math operator expression, it can be written as elementary particle creation = antiparticle annihilation, therefore "*antiparticle creation and antiparticle annihilation*",

If an affirmative proposition and its negative proposition occur at the same time, a contradiction is realized → *anything is possible*,

(c) A somewhat rough explanation of the reality of the vacuum where anything goes:

Every matter, not only elementary particles, can pair with antimatter*). Addition of both is $+a - a = 0$. Since the elementary particle size is 0, it is possible to push ∞ particles into a finite space → anything is possible, $0 = +1 - 1 + 2 - 2 + 3 - 3 + 4 - 4 + \dots$

(3) Many told *world after death* from all over the world = testimonies of the afterlife ← anything is possible,

(4) *The Heart Sutra in Buddhism* teaches "emptiness = no law = anything is possible." The last sentence praises the supernatural evangelist who travels between this world and the other world. *This world is upside down*, so pursuing *Nirvana* (nothing agony) by becoming a monk = escaping politics! ?

→ Political participation of *Lotus Sutra the Nichiren sect* <That's why Soka Gakkai is CIA agent in Japan to destroy it>

* *Lotus Sutra convenience product: This world is connected as one from beginning to end*
→ *God*.

* *Bible Revelation: I am $\alpha(a)$ and also $\omega(z)$.*

→ Nazis were anti-Jew and Christianity, pro-Tibetan Buddhism, addicted to *black magic*.

Appendix 1: SO(11;1)→SO(11) universe creation in gauge field process by QGD.

In the being, anything was possible, existence was created from nothing, but once in the existence, the laws of physics also began. In the being, there was light (gauge field) energy! . Violation of energy conservation law allowed within the time-energy uncertainty principle. If the energy is positive, the gauge field dynamics will lead to a stable annihilation miscarriage universe, and it shall return to nothingness again. If the energy is negative = -E, a positive energy field = +E (matter) shall grow to establish energy conservation law in gauge field dynamics (0 = +E - E). This became an unstable growing **BigBang universe** that turned into matter (M) with gravity field (G), and became the current expanding universe (0 = +M - G)..

Initially only light <R gauge field> appears, after the onset of symmetric vacuum polarization from {u+, u-; e+, e-}, the asymmetric proton (hydrogen) binding reaction occurs as a **proton decay reverse reaction**, A heavy element is produced from hydrogen in a nuclear fusion reaction inside a star under strong gravitational pressure and temperature.

<http://www.777true.net/img008-Quick-Guide-to-Quantum-Gravitational-Dynamics.pdf>

Digression: On the first energy of QGD gauge field is not ordinal physics, .

In the normal world, a negative energy is realized by longitudinal field component in time dimension. But in the beginning is entirely curious enough in QGD, only by which made this universe righteously. It is not usual real number gauge field, but **imaginary <not physics>**.

time, space coordinate: $x_\mu = (x_0 = ict, x_1, x_2, \dots, x_{11})$, the coordinate transformation is

$$dx_\mu = (\delta_{\mu\nu} + \epsilon_{\mu\nu}) dx_\nu, \text{ then gauge field is derived as } A_\alpha^{\mu\nu} = \partial_\alpha \epsilon^{\mu\nu}$$

$A_0^{0k} = \partial_0 \epsilon^{0k} = \text{real}$, but $A_h^{0k} = \partial_h \epsilon^{0k} = \text{imaginary}$, the traversal components become negative by the square value.

Appendix 3: The world lost its sovereignty by the NAZIS USA conspiracy.

Nazi reincarnated in US, and the US domination was invisibly completed.

Russia and China are superficially in conflict with the US, but they are secret agents and collaborators of US ruling. A typical example is the 2001/9/11 the self-produced terror attack, but was made up as Al Qaeda. China and Russia kept silent despite knowing it, which is a decisive example of US cooperation. 2011/3/11 The Great Tohoku Earthquake and the US sea floor bombs are a well-known fact around the world, however China and Russia are aware of this, but remain silent.

* For example, original Putin was assassinated, and now Kron. Kim Jong Il as well. Mao Zedong and J. Stalin were originally a pro-Rockefeller - ``Along with Prince Philip of the UK, he is committed to world population reduction plot", and the origin of their connections is going back to the revolutionary era. Large numbers of Russian Chinese were killed under both dictators. There are hidden deals. This is because the communist state's economy could not function without the secret support of the US. Also you can see this by looking at China's current level of economic dependence on the US. The poverty-stricken Japanese Communist Party has a similar hidden and betrayal structure. Xi Jinping is also on this path.

"...(At the end of the 20th century) even if it was a world of democracy and socialism on the surface, in reality it was ruled by Nazism. Both democratic countries and socialist countries competitively used Nazi weapons and killed each other. , society will be divided into those who rule strongly and the majority who are ruled, as I wish. It will also be a period of natural disasters. Humanity will be severely revenged by nature. The climate will also be divided into two, and there will be intense heat. And severe cold, fire and ice, great floods and great droughts will strike the earth one after another."

Appendix 4:Religious Revelation the Software Evolution.

Currently, life on Earth is unilaterally on the verge of extinction, but here author would like to discuss his thoughts on the mission of the universe and life.

He talked about the creation of the universe, but the basic scenario was contributed by Einstein, Russian and Japanese scientist,He was surprised once again to see how the result of a single mathematical expression of the equivalent principle tells the details of the creation of the universe by imaginary number field,but not real one field physics. !! .

Hereupon, producing variety of elements required high-temperature, high-pressure nuclear fusion inside stars caused by gravitational field motion in the cosmos.In other words, in order to prepare life materials, this large scale stage was necessary, and furthermore, a constant flow of energy was necessary for the establishment of opened system of life.

***Closed system without flow become death by the 2nd law of thermodynamics.**

It must be a miracle in space that we have an environment with the right temperature and pressure, equipped with the solar system's synchrotron radiation and the ocean, the water that is the basis of life on Earth.

The creation of the universe began with almighty, and if so, life could be said to be inevitable, or it could also be seen as a miracle with a terribly low probability.

However, the arrogance and anti-repentance of humans with greed and intellectual deficiencies are forming a state on the verge of extinction.

This world of life on earth is a barbaric and ugly world where only the hardware natural principles - the weak is eaten,the strong eat - then a religious revelation came down from the heavens as a form of software evolution.

It is an excuse of the anti-repentance established power to say that human extinction is a ready-made route based on the prophecies of the Bible's Apocalypse, but the main story in the Bible other than the Apocalypse is only teaches to repentance.
